Engineering Vacation Employment 08/09 for Ergon Energy

The vacation employment period lasts approximately 12 weeks and opportunities to work throughout regional Queensland are offered. The positions are offered in the following locations:

- Cairns
- Townsville
- Rockhampton
- Toowoomba

Four engineering disciplines are offered for the 08/09 intake:

- Electrical
- Civil
- Mechanical
- Computer systems

The positions are offered to students of all year levels and in a wide range of areas including:

- Network modelling and analysing
- Substation design and drafting
- Civil building and contract work
- SCADA and communications

The real-world experience with Ergon Energy can bear fruit for you in the future. Not only are we able to fulfil any compulsory work experience as part of your studies, it's a great way to get your foot in the door for our Electrical Engineering Scholarships and Graduate Development Program. The contacts and networks that you develop over your time with us will be invaluable in completing your studies and finding the job that is just right for you.

To ensure that your application is successfully processed, please study these guidelines carefully, and adhere to them fully, when making your application.

- Only engineering students from Queensland universities are eligible to apply.
- Applications will close at ***5.00 pm Wednesday 13th August 2008***. Late applications cannot be accepted.
- Applicants who accept an offer of employment are responsible for all **travel and/or accommodation costs** that may be associated with occupying a position.
- All successful candidates are required by law to present an appropriate **work permit** on the **first** day of employment, otherwise paid work cannot commence. A **FORM 49** must be lodged in order to receive a permit, and you can download the form from the following web address: **http://www.qirc.qld.gov.au/prod_form_leg/forms/form49.pdf.** You are advised to begin this process as soon as a position is verbally offered to you so as to acquire a permit in time to commence work.

Successful shortlisted applicants will be required to attend an interview with Ergon Energy. Interviews will be held the week commencing 22nd September 2008 in the various regional locations.

Any questions regarding these opportunities, please call the Recruitment hotline on 1800 656 810 or email graduate.enquiries@ergon.com.au

Kind Regards,
