USQ Mathematics Enrichment

USQ Faculty of Sciences
University of Southern Queensland • Toowoomba • Queensland • Australia

For Years 9 and 10 Students

Do you love solving problems?
Do you love mathematics?

Interesting questions in selected topics will be tackled in lively sessions, to build your range of techniques for solving problems.

The aims of the program are:

- to help you perform at a high level in national mathematics competitions;
- to encourage further study in mathematics; and
- to challenge you if you understand mathematics quickly.

Proposed Schedule for 2012	
Date	**Proposed Topics** (not necessarily on date listed)
1 March	Go figure!
22 March	Count me in!
19 April	Zero maths
3 May	Light bulb moments
24 May	Transitory Maths
14 June	Think of a number….

Interested? – Talk to your mathematics teacher at school who will register you.

Time	**4.00 – 6.00 pm on Thursday afternoon**
Place	**USQ room T119** (see map on back)
	USQ room T124 – 19 April only
	USQ room D109 – 14 June only

There will be no cost.

We look forward to creating a lively and fun Mathematics Enrichment program!

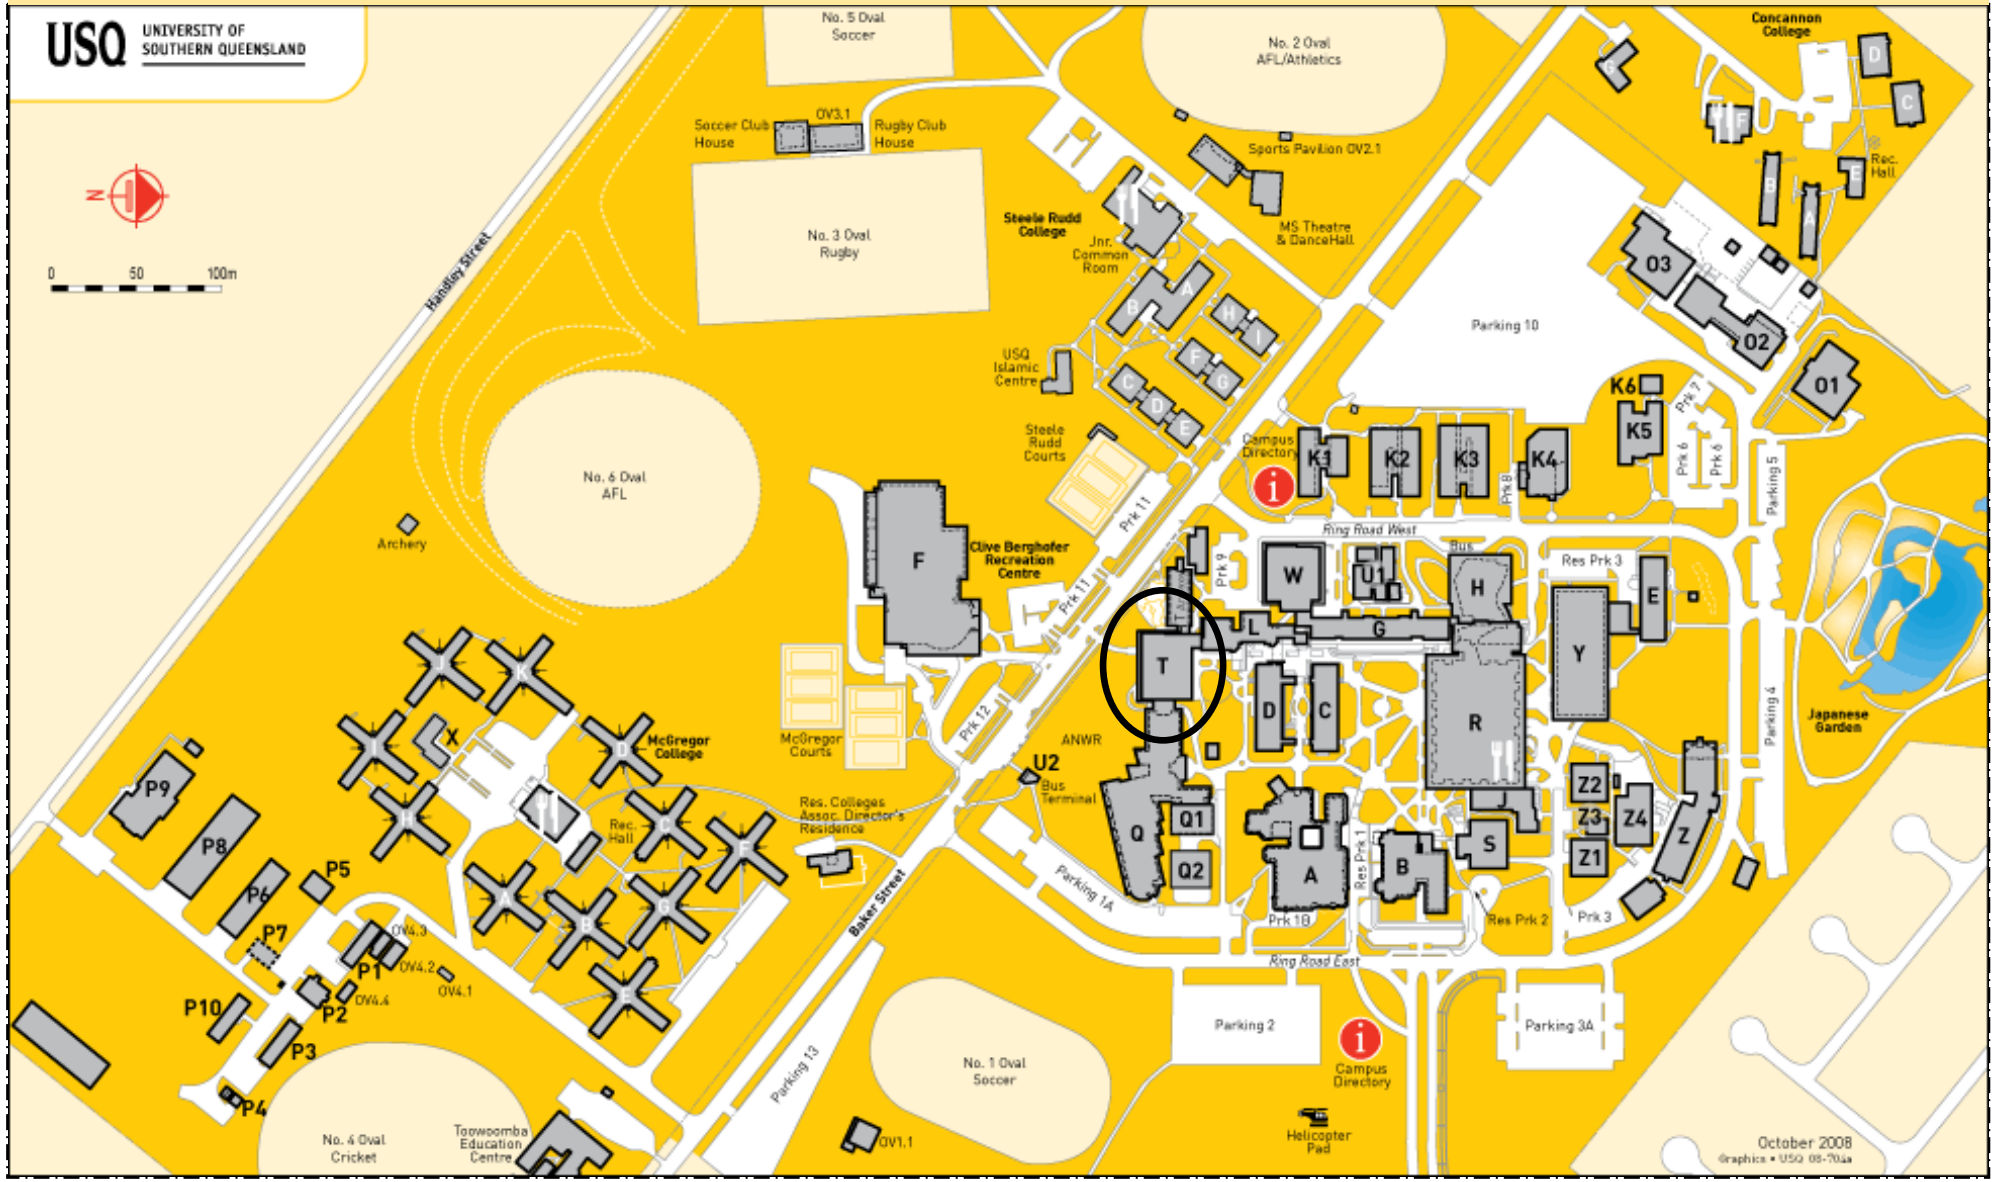
LOCATION AND PARKING

Classes will be held in T Block (circled area on map) off Baker Street. From the pedestrian crossing, follow the path under the building – T122 will be the second room on the left hand side – the room is numbered and there will be signs for the Mathematics Enrichment Program displayed. T119 is located on the right hand side BEFORE the path continues under the building.

There is unrestricted parking in parking areas 2, 3A, 10 and 13.


However after 6.00 pm, more parking may be available on Baker Street close to T Block and in parking areas 11 and 12 and 1A.
