Faculty of Arts

Foreword

Staff in the Faculty of Arts contribute to the scholarly profile of the University across a diverse set of disciplines. These disciplines include communications, the creative arts, the humanities, international studies, music, social sciences and theatre. Scholarly outcomes can take the form of books and articles, musical and theatrical performance and a range of art forms from photography, ceramics and textiles to painting and sculpture. The Faculty values and proudly acknowledges the creative, performance, professional, research and scholarly work of its staff in all its forms.

The Faculty makes a particularly strong contribution in the areas of Public Memory and Cultural Identity. The Public Memory Research Centre coordinates researchers interested in the ways in which societies collect and remember their pasts. It is particularly interested in the relation of those pasts to changing conceptions of cultural identity. (www.publicmemory.org)

'*The Record*' has been developed to document and acknowledge the outcomes that staff have achieved as a reflection of their commitment to research, scholarship, professional and community service.

Australia's scholarly, arts and professional identities are greatly enriched by the willing, often voluntary contributions of staff to their communities of practice.

On behalf of the Faculty of Arts I publish here an account of the important contributions made by staff to the scholarly culture of the University of Southern Queensland for 2005.
