SYNOPSIS

This course is designed to introduce students to the Australian news media and their practices. Emphasis will be placed on the need for students to think objectively about the main news events of the day, and the ways the print media have reported them. Students will be encouraged to achieve accuracy and objectivity within the constraints regularly imposed on print practitioners. Students will be introduced to news values, journalism research, interview skills and the elements that make up news stories. They will be given considerable practice in writing introductory paragraphs and handling direct and indirect quotations. To pass this course students must complete and hand in all items of assessment. The final grade will be calculated on the total mark only. Grades will be awarded at the percentiles of HD = 90 or more; A = 80-89; B = 65-79; C = 50-64; F = Less than 50.
