SYNOPSIS

This course provides students with an introduction to electronic spreadsheeting and accounting software, together with an analysis of accounting information systems (both manual and electronic). In the course ACC1101 Accounting for Decision-Making, students were introduced to transaction analysis and we build upon this by covering the basics of the GST (Goods and Services Tax) and the operational or cash flow aspects of the Australian taxation system. Further, we will extend your knowledge of the manual accounting environment by covering the complete accounting cycle (specialised journals, subsidiary ledgers, the worksheet and closing and reversing entries). We will also undertake a comprehensive review of the MYOB accounting software package. Students will be instructed on the use and application of Microsoft Excel, building upon the knowledge already gained in the course CIS1000 Introduction to Computing. Throughout this course, students will become familiar with the concepts associated with accounting information systems, both manual and electronic. Enrolment in this course requires continuous access to an IBM PC or IBM compatible microcomputer, either via a student's own arrangements or a USQ study centre, as well as access to Microsoft Excel for Windows. The accounting software can be purchased from the USQ Bookshop.

OBJECTIVES

Completion of this course should enable students to:

- describe and specify the desirable characteristics of structured spreadsheet design;
- demonstrate basic skills in the use of some of the Excel spreadsheet functions;

- acquire skills and knowledge in using the Mind Your Own Business (M.Y.O.B.) accounting software package;
- understand the major business cycles and the operation and impact of the GST regime upon Australian firms;
- demonstrate an understanding of the complete accounting cycle (source documents; journals; ledgers; through to closing and reversing entries);
- process business transactions and events using a manual accounting system of specialised journals, control accounts and subsidiary ledgers;
- prepare classified financial reports (Balance Sheet; Profit and Loss Statement);
- discuss the role and function of internal controls in the operation of modern business organisations;
- appreciate and apply the core concepts associated with computerised accounting information systems.

IMPORTANT ASSESSMENT INFORMATION

- 1 Attendance requirements:

It is the students' responsibility to attend and participate appropriately in all activities (such as lectures, tutorials, laboratories and practical work) scheduled for them, and to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration. If you are an International student in Australia it is a requirement of your student visa that you attend all classes at your campus.
- 2 Requirements for students to complete each assessment item satisfactorily:

To complete the assignments satisfactorily, students must obtain at least 50% of the marks available for the assignments in aggregate. To complete the examination satisfactorily, students must obtain at least 50% of the marks available for the examination.
- 3 Penalties for late submission of required work:

If students submit assignments after the due date without prior approval then a penalty of 20% of the total marks gained by the student for the assignment will apply for each working day late.
- 4 Requirements for student to be awarded a passing grade in the course:

To be assured of receiving a passing grade a student must attempt all of the summative assessment items, achieve at least 50% in the examination, achieve an aggregated mark of at least 50% in the total marks allocated for the assignments, and at least 50% of the available weighted marks for the summative assessment items.
- 5 Method used to combine assessment results to attain final grade:

The final grades for students will be assigned on the basis of the weighted aggregate of the marks (or grades) obtained for each of the summative assessment items in the course.
- 6 Examination information:

This is a restricted examination. Candidates are allowed access to specific materials during the examination. The only materials that candidates may use in the restricted examination for this course are: writing materials (non-electronic and free from material which could give the student an unfair advantage in the examination); calculators which cannot hold textual information (students must indicate on their examination paper the make and model of any calculator(s) they use during the examination). Students are not permitted to take mobile telephones, pagers or other electronic means of communication into the examination room.
- 7 Examination period when Deferred/Supplementary examinations will be held:

Any Deferred or Supplementary examinations for this course will be held during the next examination period.
- 8 University Regulations:

Students should read USQ Regulations 5.1 Definitions, 5.6 Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. These regulations can be found at the URL: <http://www.usq.edu.au/SECARIAT/calendar/Part5/> or in the printed version of the

current USQ Handbook. Students should also read The Guide to Policies and Procedures of the Faculty which can be found at the URL: <http://www.usq.edu.au/handbook/2003/business/polproc/index.htm> or in the printed version of the current USQ Handbook.

ASSESSMENT NOTES

- 1 Assignments: (i) Students must retain a copy of each item submitted for assessment. This must be produced within 24 hours if required by the Examiner. (ii) The Examiner may grant an extension of the due date of an assignment in extenuating circumstances. If students wish to claim extenuating circumstances then they shall provide validated documentary evidence explaining the circumstances. The Examiner shall consider the statement and decide on the outcome. (iii) Assignments are to be submitted with the appropriate assignment cover. (iv) The Examiner will not accept submission of assignments by facsimile.
- 2 Course Weightings: Course weightings of topics should not be interpreted as applying to the number of marks allocated to questions testing those topics in an examination paper. The examination may test material already tested in assignments.

OTHER REQUIREMENTS

- 1 Computer/Software requirements will be outlined in the initial lecture for on-campus students.
 - 2 Students are required to have or have access to a Personal Computer system that is fully operational PRIOR to the commencement of the semester in which the course is offered. Systems failure will not be valid grounds for applications for extension of assignment due dates.
 - 3 Students will require access to email and internet access to USQConnect for this course.
-
