SYNOPSIS

United Germany is a major economic, political and cultural force in the world, in particular in the European Union. German is widely used in Central Europe as a means of communication, especially in business and trade, between partners who have no other language in common. German has also contributed key terminology to fields such as music, science and engineering. This course extends the basic communicating skills of listening, speaking, reading and writing in German acquired in Introductory German A. It is intended for students with little or no previous learning in German or for students who completed Year 12 German more than 5 years ago.

2. appropriate socio-cultural skills and knowledge connected with 1;
