

The University of Southern Queensland

Course specification

Description: Database Design						
Subject	Cat-nbr	Class	Term	Mode	Units	Campus
CIS	2002	40542	1, 2005	ONC	1.00	Toowoomba

Academic group:	FOBUS
Academic org:	FOB005
Student contribution band:	2
ASCED code:	020303

STAFFING

Examiner: Glen Van Der Vyver

Moderator: Anita Ryle

REQUISITES

Pre-requisite: CIS1000 Co-requisite: CIS2000

RATIONALE

An essential component of a successful information system is usually a well designed and efficient database. It is important for those who wish to become information systems practitioners to have a sound understanding of database theory and current trends. Furthermore, it is of crucial importance that information systems practitioners understand database design because databases are not only becoming pervasive but also inexorably larger and more complex.

SYNOPSIS

This course introduces students to relational database theory and design. Practical methodologies for data analysis, data modelling and database design are examined, coupled with a detailed study of the relational database model. Students will build practical skills in ER diagramming, normalisation and database design. Students will also be exposed to a broad range of topics in database theory and current database trends.

OBJECTIVES

On successful completion of this course, the student will be able to:

1. describe and discuss the relational database model;
2. describe, use and apply data analysis and modelling techniques, including ER diagramming and normalisation, and derive a relational database design;
3. demonstrate an ability to analyse and justify database designs, with clear verbal and written statements of any assumptions about the data;
4. demonstrate an understanding of current database theory and trends.

TOPICS

	Description	Weighting (%)
1.	Database Theory	40.00
	1.1. The Database Environment	
	1.2. Topics in Database Theory	
2.	Database Design	60.00
	2.1. Data Model	
	2.2. Data Analysis	
	2.3. Relational Model and Relational Algebra	
	2.4. E.R. Diagramming	
	2.5. Normalisation	

TEXT and MATERIALS required to be PURCHASED or ACCESSED

ALL textbooks and materials are available for purchase from USQ BOOKSHOP (unless otherwise stated). Orders may be placed via secure internet, free fax 1800642453, phone 07 46312742 (within Australia), or mail. Overseas students should fax +61 7 46311743, or phone +61 7 46312742. For costs, further details, and internet ordering, use the 'Textbook Search' facility at <http://bookshop.usq.edu.au> click 'Semester', then enter your 'Course Code' (no spaces).

CIS2002 study package available from the USQ Bookshop.

D'Orazio, R & Happel, G 1996, *Practical data modelling for database design*, John Wiley & Sons, Brisbane.

Lahey, H 2000, *Information systems developers handbook: a road map for students*, University of Southern Queensland, Toowoomba, Queensland.

(This handbook is available on the USQ website at <http://www.usq.edu.au/faculty/business/departments/infosys/isdhandbook.htm>)

Mannino, MV 2004, *Database design: application development and administration*, 2nd edn, McGraw-Hill, New York.

Summers, J & Smith, B 2004, *Communication skills handbook: how to succeed in written and oral communication*, John Wiley & Sons, Milton, Queensland.

(revised & updated edition)

REFERENCE MATERIALS

Reference materials are materials that, if accessed by students, may improve their knowledge and understanding of the material in the course and enrich their learning experience.

Date, CJ 2004, *An introduction to database systems*, 8th edn, Addison Wesley, Reading, Massachusetts.

Elmasri, R & Navathe, SB 2004, *Fundamentals of database systems*, 4th edn, Addison-Wesley, Reading, Massachusetts.

Finkelstein, C 1992, *Information engineering: strategic systems development*, Addison-Wesley, Sydney.

Hoffer, JA , Prescott, MB & McFadden, FR 2005, *Modern database management*, 7th edn, Prentice Hall, Upper Saddle River, New Jersey.

Kroenke, DM 2002, *Database processing: fundamentals, design and implementation*, 8th edn, Prentice-Hall Inc, Upper Saddle River, New Jersey.

Rob, P & Coronel, C 2004, *Database systems design implementation and management*, 6th edn, Course Technology, Boston, Massachusetts.

STUDENT WORKLOAD REQUIREMENTS

ACTIVITY	HOURS
Laboratory or Practical Classes	12.00
Lectures	24.00
Private Study	117.00
Tutorials	14.00

ASSESSMENT DETAILS

Description	Marks out of	Wtg(%)	Due date
PRAC TEST	100.00	15.00	01 Mar 2005 (see note 1)
ASSIGNMENT	100.00	15.00	09 May 2005
EXAM PART A (MULTI-CHOICE)	20.00	14.00	END S1 (see note 2)
EXAM PART B (WRITTEN)	80.00	56.00	END S1

NOTES

1. Date to be advised.
2. The examination is scheduled to be held in the end-of-semester examination period. Students will be advised of the official examination date for Exam (Parts A and B) after the timetable has been finalised. The total working time for Exam (Parts A and B) is 3 hours.

IMPORTANT ASSESSMENT INFORMATION

1 Attendance requirements:

It is the students' responsibility to attend and participate appropriately in all activities (such as lectures, tutorials, laboratories and practical work) scheduled for them, and to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration. If you are an international student in Australia you are advised to attend all classes at your campus. Failure to attend may infringe the conditions of your student visa.

- 2 Requirements for students to complete each assessment item satisfactorily:
To complete each of the assessment items satisfactorily, students must obtain at least 50% of the marks available for each assessment item.
- 3 Penalties for late submission of required work:
If students submit assignments after the due date without prior approval then a penalty of 5% of the total marks available for the assignment will apply for each working day late. The assignment is likely to be subject to processing delays.
- 4 Requirements for student to be awarded a passing grade in the course:
To be assured of receiving a passing grade a student must submit all of the summative assessment items, achieve a total mark of at least 50% in Part A and Part B of the examination, and at least 50% of the available weighted marks for the summative assessment items.
- 5 Method used to combine assessment results to attain final grade:
The final grades for students will be assigned on the basis of the weighted aggregate of the marks (or grades) obtained for each of the summative assessment items in the course.
- 6 Examination information:
This is a closed examination. Candidates are allowed to bring only writing and drawing instruments into the examination. The examination consists of two parts. Part A (1 hour) is worth 34 marks and Part B (2 hours) is worth 66 marks.
- 7 Examination period when Deferred/Supplementary examinations will be held:
Any Deferred or Supplementary examinations for this course will be held during the next examination period.
- 8 University Regulations:
Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. These regulations can be found at the URL <http://www.usq.edu.au/corporateservices/calendar/part5.htm>. Students should also read the Faculty of Business Guide to Policies and Procedures of the Faculty which can be found at the URL <http://www.usq.edu.au/handbook/current/buspolproc.html>.

ASSESSMENT NOTES

- 1 Assignments: (i) The due date for an assignment is the date by which a student must despatch the assignment to the USQ. The onus is on the student to provide proof of the despatch date, if requested by the Examiner. (ii) Students must retain a copy of each item submitted for assessment. This must be produced within 24 hours if required by the Examiner. (iii) The Examiner may grant an extension of the due date of an assignment in extenuating circumstances. Students may apply for an extension before the due date or include an application with the submitted assignment after the due date. Such applications should be in writing and include supporting documentary evidence. The authority for granting extensions rests with the relevant Examiner. (iv) The Examiner will normally only accept assessments that have been written, typed or printed on paper-based media. (v) In the event that a due date for an assignment falls on a local public holiday in their area, such as a Show holiday, the due date for the assignment will be the next day. Students are to note on the assignment cover the date of the public holiday for the Examiner's convenience.
- 2 Course Weightings: Course weightings of topics should not be interpreted as applying to the number of marks allocated to questions testing those topics in an examination paper.

- 3 Referencing in Assignments: Unless otherwise directed by the Examiner, all written and oral assignments submitted by students must conform to the guidelines laid out in the 'Communication skills handbook: how to succeed in written and oral communication' and 'Information systems developers handbook: a road map for students'. Any work not prepared in accordance with these guidelines may be subject to penalty or requirement for resubmission.
- 4 Make-up Work: Students who have undertaken all of the required assessments in a course but who have failed to meet some of the specified objectives of a course within the normally prescribed time may be awarded the temporary grade: IM (Incomplete - Make up). An IM grade will only be awarded when, in the opinion of the Examiner, a student will be able to achieve the remaining objectives of the course after a period of non-directed personal study.
- 5 Deferred Work: Students who, for medical, family/personal, or employment-related reasons, are unable to complete an assignment or to sit for an examination at the scheduled time may apply to defer an assessment in a course. Such a request must be accompanied by appropriate supporting documentation. One of the following temporary grades may be awarded: IDS (Incomplete - Deferred Examination); IDM (Incomplete Deferred Make-up); IDB (Incomplete - Both Deferred Examination and Deferred Make-up).
- 6 Appeals: Any appeal against the award of a grade in the course will be conducted in accordance with University Regulations. These Regulations are published in the University Handbook.

OTHER REQUIREMENTS

- 1 E-mail and Internet Access: Students will require access to e-mail and Internet access to USQConnect for this course.
-
