

Course specification

Description: Network Programming with .NET						
Subject	Cat-nbr	Class	Term	Mode	Units	Campus
CIS	2003	44567	2, 2005	ONC	1.00	Toowoomba

Academic group:	FOBUS
Academic org:	FOB005
Student contribution band:	2
ASCED code:	020103

STAFFING

Examiner: Angela Howard
Moderator: Charmaine Ryan

REQUISITES

Pre-requisite: CIS2001

RATIONALE

Contemporary software development involves object-based, object-oriented, and event-driven programming techniques. Languages such as Visual Basic, Delphi, and Java provide easy-to-use graphical design interfaces, making it relatively easy to employ these programming techniques for use in a PC or a networking environment. Advanced programming units must further develop the student's understanding of contemporary architecture and design methods employed in the building of forms-based applications that can be deployed to run in distributed or client/server environments.

SYNOPSIS

This advanced programming course uses Microsoft's .NET to build upon the solid foundations gained in previous programming courses. It further develops object-oriented programming skills that may be applied on workstations, intranets, and/or the internet applications development. The course curriculum expands upon interface design concepts and practice to include Web interfaces; explores advanced database manipulation; uses object-oriented methodology; creates client-server applications including multi-tiered applications; develops component based internet programming; explores integration of legacy applications with new technologies, and includes an introduction to mobile wireless services.

OBJECTIVES

On completion of this course students will be able to:

1. Demonstrate an understanding of the following concepts and their practical application using .NET: Advanced programming concepts; Components; Web interface design; Advanced database access, search, and maintenance techniques; Multi-tiered

- client-server applications; Internet security; Windows Services; Mobile Wireless Services;
2. Create, manage, and distribute robust, reliable, secure, and user-friendly component-based applications; and
 3. Develop Internet applications including the transfer of data using XML/SOAP.

TOPICS

	Description	Weighting (%)
1.	Overview of Network Programming	12.00
2.	XML/SOAP	7.00
3.	Web Interface Design and Graphics use	10.00
4.	Data Structures	8.00
5.	MultiThreading	5.00
6.	Regular Expressions	3.00
7.	Database use on a Network	10.00
8.	Introduction to Client/Server Programming	10.00
9.	Web based Database use/Multi-tiered applications	10.00
10.	Client/Server Programming continued	5.00
11.	Windows Services	7.00
12.	Network Security	8.00
13.	Wireless Services	5.00

TEXT and MATERIALS required to be PURCHASED or ACCESSED

ALL textbooks and materials are available for purchase from USQ BOOKSHOP (unless otherwise stated). Orders may be placed via secure internet, free fax 1800642453, phone 07 46312742 (within Australia), or mail. Overseas students should fax +61 7 46311743, or phone +61 7 46312742. For costs, further details, and internet ordering, use the 'Textbook Search' facility at <http://bookshop.usq.edu.au> click 'Semester', then enter your 'Course Code' (no spaces).

Software: Microsoft Visual Basic.NET

Operating System: Windows XP Professional.

MSDN library supplied with .NET software

Online library at <http://msdn.microsoft.com>

World Wide Web Consortium <http://www.w3.org>

Compulsory additional material published on the discussion list.

CIS2003 study package available from the USQ Bookshop.

Deitel, HM, Deitel, PJ & Nieto, TR 2002, *Visual Basic.NET: how to program*, 2nd edn, Prentice Hall, Upper Saddle River, New Jersey.

Kalata, K 2005, *Introduction to ASP.NET*, 2nd edn, Thomson Course Technology, Boston, Massachusetts.

(This text is also known as 'Introduction to Microsoft ASP.NET')

Lahey, H (ed) 2000, *Information systems developers handbook: a road map for students*, University of Southern Queensland, Toowoomba, Queensland.

(This handbook is available on the USQ website at <http://www.usq.edu.au/faculty/business/departments/infosys/isdhandbook.htm>)

REFERENCE MATERIALS

Reference materials are materials that, if accessed by students, may improve their knowledge and understanding of the material in the course and enrich their learning experience.

STUDENT WORKLOAD REQUIREMENTS

ACTIVITY	HOURS
Laboratory or Practical Classes	14.00
Lectures	26.00
Private Study	112.00
Tutorials	14.00

ASSESSMENT DETAILS

Description	Marks out of	Wtg(%)	Due date
ASSIGNMENT - 1ST SUBMISSION	100.00	10.00	22 Aug 2005
ASSIGNMENT - 2ND SUBMISSION	100.00	30.00	17 Oct 2005
3 HOUR EXAMINATION	180.00	60.00	END S2 (see note 1)

NOTES

1. The examination is scheduled to be held in the end-of-semester examination period. Students will be advised of the official examination date after the timetable has been finalised.

IMPORTANT ASSESSMENT INFORMATION

- 1 Attendance requirements:
It is the students' responsibility to attend and participate appropriately in all activities (such as lectures, tutorials, laboratories and practical work) scheduled for them, and to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration.
- 2 Requirements for students to complete each assessment item satisfactorily:
To complete the assignment satisfactorily, students must obtain at least a C grade for the assignment. To complete the examination satisfactorily, students must obtain at least 50% of the marks available for the examination.
- 3 Penalties for late submission of required work:

If students submit assignments after the due date without prior approval then a penalty of 20% of the total marks available for the assignment may apply for each working day late.

- 4 Requirements for student to be awarded a passing grade in the course:
To be assured of receiving a passing grade a student must attempt all of the summative assessment items, achieve a mark of at least 50% in the assignment, achieve at least 50% in the examination, and at least 50% of the available weighted marks for the summative assessment items.
- 5 Method used to combine assessment results to attain final grade:
The final grades for students will be assigned on the basis of the weighted aggregate of the marks obtained for each of the summative assessment items in the course.
- 6 Examination information:
This is a restricted examination. Candidates are allowed access to specific materials during the examination. The only materials that candidates may use in the examination for this course are (i) Writing materials: non-electronic and free from material which could give the student an unfair advantage in the examination; (ii) Translation dictionaries: with the Examiner's approval, candidates may, take an appropriate non-electronic translation dictionary into the examination. This will be subject to perusal and, if it is found to contain annotations or markings that could give the candidate an unfair advantage, it may be removed from the candidate's possession until the appropriate disciplinary action is completed.
- 7 Examination period when Deferred/Supplementary examinations will be held:
Any Deferred or Supplementary examinations for this course will be held during the next examination period.
- 8 University Regulations:
Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. These regulations can be found at the URL <http://www.usq.edu.au/corporateservices/calendar/part5.htm>. Students should also read the Faculty of Business Guide to Policies and Procedures of the Faculty which can be found at the URL <http://www.usq.edu.au/handbook/current/buspolproc.html>.

ASSESSMENT NOTES

- 1 Assignments: (i) The due date for an assignment is the date by which a student must despatch the assignment to the USQ. The onus is on the student to provide proof of the despatch date, if requested by the Examiner. (ii) If requested, students will be required to provide a copy of an assignment submitted for assessment purposes. This should be despatched to the USQ within 24 hours of receipt of a request being made. (iii) The Examiner may grant an extension of the due date of an assignment in extenuating circumstances. Students may apply for an extension before the due date or include an application with the submitted assignment after the due date. Such applications should be in writing and include supporting documentary evidence. The authority for granting extensions rests with the relevant Examiner. (iv) The Examiner will normally only accept assessments that have been written, typed or printed on paper-based media. (v) In the event that a due date for an assignment falls on a local public holiday in their area, such as a Show holiday, the due date for the assignment will be the next day. Students are to note on the assignment cover the date of the public holiday for the Examiner's convenience.

- 2 Course Weightings: Course weightings of topics should not be interpreted as applying to the number of marks allocated to questions testing those topics in an examination paper.
- 3 Guidelines for Assignments: Unless otherwise directed by the Examiner, all written and oral assignments submitted by students must conform to the guidelines laid out in the 'Communication skills handbook: How to succeed in written and oral communication' and the 'Information systems developers handbook'. Any work not prepared in accordance with these guidelines may be subject to penalty or requirement for resubmission.
- 4 Make-up Work: Students who have undertaken all of the required assessments in a course but who have failed to meet some of the specified objectives of a course within the normally prescribed time may be awarded the temporary grade: IM (Incomplete - Make up). An IM grade will only be awarded when, in the opinion of the Examiner, a student will be able to achieve the remaining objectives of the course after a period of non-directed personal study.
- 5 Deferred Work: Students who, for medical, family/personal, or employment-related reasons, are unable to complete an assignment or to sit for an examination at the scheduled time may apply to defer an assessment in a course. Such a request must be accompanied by appropriate supporting documentation. One of the following temporary grades may be awarded: IDS (Incomplete - Deferred Examination); IDM (Incomplete Deferred Make-up); IDB (Incomplete - Both Deferred Examination and Deferred Make-up).

OTHER REQUIREMENTS

- 1 Learning Resources: Prescribed text and materials (see above); prescribed reference materials (see above); printed Introductory/Study Book* and Book/s of Selected Readings*; and course Website accessible via USQConnect. *part of the study package available from the USQ Bookshop.
 - 2 E-mail and Internet Access: Students will require access to e-mail and Internet access to USQConnect for this course.
-
