### RATIONALE

Contemporary discussion of integrative educational goals and practice recognises the integration of knowledge and experience in child- initiated learning. An increasing number of early childhood professionals and researchers are advocating for an integrated curriculum approach in the early childhood classroom. Recent conceptions of the 'integrated curriculum' and play based pedagogies encompass views that children derive multiple benefits from socially mediated learning; from engaging in play, problem-solving and projects that are contextualised in personally meaningful endeavours. It acknowledges that children have multiple pathways for learning, and that this learning occurs through a range of symbolic languages (verbal, written, graphic, musical and dramatic forms).

### SYNOPSIS

Play resides as a central theme within the course, and students examine the role of play as integrative in the curriculum. To this end, they are engaged in exploring children's thinking and communication, to develop-in-depth skills in the documentation, and interpretation of play. Further to this, students explore how children's play can be scaffolded and evaluated within a play-based, integrated curriculum. Models of curriculum are explored, particularly as they apply to the teaching of children aged 4 to 6 years. Students examine a range of curriculum traditions, and compare them to recent constructions of early childhood curriculum. In particular, the nature of the 'integrated curriculum' is examined, both theoretically, and in its practical applications, both in Australia and internationally. **IMPORTANT NOTE:** Working with Children: State law in Queensland requires that all adults (including university students, pre-service educators, trainers, vocational teachers, industry educators) working with children under the age of 18, in the State of Queensland\*, obtain approval before commencing such work. Many education

courses include a practical component (professional experience, project work, research, assessment etc.) that may require engagement with children under the age of 18. It is your responsibility to ensure that you possess a current suitability card (Blue Card) before commencing any practical components of this course. **DO NOT PARTICIPATE IN ANY PRACTICAL EXPERIENCE WITH CHILDREN UNDER 18 UNLESS YOU POSSESS A CURRENT 'BLUE CARD'**. For further information:
