RATIONALE

Early childhood educators undertaking leadership roles and advocacy for young children with special needs require an awareness of a range of core issues impacting on current practices such as inclusion so they are able to make informed choices and engage effectively in professional debate. Rapid changes in information about disabilities and other variations in young children and paradigmatic shifts in both early childhood education and early childhood special education place demands on early childhood leaders to negotiate challenging issues and changes in practice.

SYNOPSIS

This course will consider current debates in early childhood special education focussed around divergence in philosophy and images of disability and the relationship of these variations to concepts of meaningful assessment, child and family rights, inclusion, partnerships with parents and professionals, approaches to curriculum and incorporation of technological tools into programs. Differences between early childhood education and early childhood special education affecting programs for young children with special needs will be considered in relation to their theoretical frameworks. The link between policy and practice will be critically analysed and challenges to inclusion will be debated. **IMPORTANT NOTE: Working with Children: State law in Queensland requires that all adults (including university students, pre-service educators, trainers, vocational teachers, industry educators) working with children under the age of 18, in the state of Queensland*, obtain approval before commencing such work. Many education courses include a practical component (professional experience, project work, research, assessment etc..) that may require engagement with children under the age of 18. It is your responsibility to ensure that you possess a current suitability card (Blue Card) before commencing any practical components of this course. DO NOT PARTICIPATE IN ANY PRACTICAL EXPERIENCE WITH CHILDREN UNDER 18 UNLESS YOU POSSESS A CURRENT 'BLUE CARD'.** For further information:
