### RATIONALE

The learning needs and styles of adults have been shown to differ significantly from the learning needs and styles of students below compulsory school attendance age. Teachers in post-compulsory education settings should have a clear understanding of the characteristics of adult learners and the nature of learning processes utilised by them. Such knowledge is an essential requirement if students are to improve their knowledge and skills in curriculum design, implementation and assessment.

### SYNOPSIS

Within a framework of theories of human learning and adult development, this course will focus on the characteristics and learning needs of adult learners. In this course the students will develop an understanding of the learning characteristics of mature learners with particular emphasis on identifying the implications of these characteristics for curriculum design and instructional strategies at the post-compulsory level. **IMPORTANT NOTE: Working with Children: State law in Queensland requires that all adults (including university students, pre-service educators, trainers, vocational teachers, industry educators) working with children under the age of 18, in the State of Queensland\*, obtain approval before commencing such work. Many education courses include a practical component (professional experience, project work, research, assessment etc.) that may require engagement with children under the age of 18. It is your responsibility to ensure that you possess a current suitability card (Blue Card) before commencing any practical components of this course. DO NOT PARTICIPATE IN ANY PRACTICAL EXPERIENCE WITH CHILDREN UNDER 18 UNLESS YOU POSSESS A CURRENT 'BLUE CARD'. For further information:**
