OTHER-REQUISITES

Pre-requisite: Enrolment in this course is only available to students in Honours, Masters and some other Postgraduate programs and such enrolment requires the permission of the appropriate Program Coordinator.

RATIONALE

This course exists to satisfy the need for some flexibility in Honours and Masters programs in Mathematics and Statistics to cater for the widely varying interests and chosen specializations of students.

SYNOPSIS

Contact the Examiner to study this course by distance education. This course provides the opportunity for a student to pursue an area of study that will complement the other studies in the student's program. Typically the course will consist of specialized investigations extending knowledge and skills in a certain area. The studies could involve, for example, directed readings, extension of the project (where appropriate), or some other approved activity which would complement the student's studies in the program.

OBJECTIVES

On successful completion of this course students will be able to:

1. demonstrate knowledge and skills in the complementary study area.
