RATIONALE

Current reform initiatives exhort all educators to be teachers of literacy. This foregrounds the central role literacy plays in student learning. Educators do not currently have these skills, or repertoires of practice. There is also a growing awareness of the importance of the impact of multiliteracies in our society and the need for students and emerging professionals to be competent in managing these diverse literacies to gain the attributes of life long learning.

SYNOPSIS

This course will explore a range of issues and skills which link student learning to attributes of literacy. Emerging professionals should have increased awareness of the importance of literacy, and multiliteracies as educational issues. In particular, this course will focus on the need to embed literacy learning in planning for effective teaching and for growing critical awareness. Different modes of literacy will be discussed, and students will be encouraged to develop their own understanding of the implications of literacy perspectives, and to gain strategies to include or embed these into their teaching contexts. This course aims to give middle school and senior secondary and post-compulsory pre-service educators increased understanding and confidence to deal with literacy strategies for teaching, a broadened perspective on education and to improve cross sectoral communication. Emerging professionals will have attitudes and skills of literacy competence to appropriately design and enhance student learning and contribute to whole school/educational organisation literacy planning. **IMPORTANT NOTE: Working with Children: State law in Queensland requires that all adults (including university students, pre-service educators, trainers, vocational teachers, industry educators) working with children under the age of 18, in the State of Queensland*, obtain approval before commencing such work. Many education courses include a practical component (professional experience, project work, research, assessment etc.) that may require engagement with children under the age of 18. It is your responsibility to ensure that you possess a current suitability card (Blue Card) before commencing any practical components of this course. DO NOT PARTICIPATE IN ANY PRACTICAL EXPERIENCE WITH CHILDREN UNDER 18 UNLESS YOU POSSESS A CURRENT 'BLUE CARD'. For further information:**
