### SYNOPSIS

This course introduces students to the complex world of commerce. It emphasises the practical and functional nature of business decisions from the perspective of financial accounting; managerial costing and budgetary policies; investing; and financing of business operations. Designed to provide a solid foundation for further study in both accounting and non-accounting disciplines, the course provides a logical introduction to the accounting environment and to the common financial accounting (external) reports and management accounting (internal) tools used for decision-making purposes. As it is important to develop an understanding not only of how the accounting reports are used, but how they are derived, the course also addresses the procedures underlying their preparation. As the course assessment contains online tests, students will require Internet access to USQConnect. Access to a valid email account will also be required.

### OBJECTIVES

On successful completion of this course students will be able to:

1. discuss the environment of accounting and finance in Australia;
2. distinguish the key features of the environment of accounting and finance in realistic examples;
3. prepare each of two major financial accounting reports (Balance Sheet; Income Statement); discuss the key features of the Cash Flow Statement; and understand and discuss the accounting principles upon which they are based;
4. analyse basic business transactions in relation to their effects on the accounting equation and identified individual accounts;
5. discuss the role and function of the major components in the accounting cycle (source documents; journals; ledger) and demonstrate the transfer and processing of financial information for basic business transactions and events using these devices;
6. contrast the alternative accounting transaction recognition systems (cash; accrual);
7. perform balance day adjustments and prepare final financial accounting reports by making use of worksheets;

8. discuss the effect of merchandising operations on the financial accounting process;
9. for financial statement analysis, (a) discuss and apply common analysis techniques including financial ratios, (b) interpret the results of these analysis techniques and discuss the implications for a business, and (c) discuss the limitations of financial ratio analysis;
10. discuss business cost classifications, and apply this knowledge to undertake Cost-Volume-Profit analysis and to make other related business decisions;
11. discuss the budgeting process, prepare budgets, and demonstrate the relevance of budgeting towards organisational planning and control;
12. explain the business investment decision-making process, and apply common investment appraisal tools;
13. discuss the main sources of finance for a business, and discuss the issues associated with working capital maintenance;
14. discuss various aspects of ethics in accounting and business; and
15. discuss various aspects of social and environmental accountability.

## IMPORTANT ASSESSMENT INFORMATION

- 1 Attendance requirements:  
It is the students' responsibility to attend and participate appropriately in all activities (such as lectures, tutorials, laboratories and practical work) scheduled for them, and to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration.
- 2 Requirements for students to complete each assessment item satisfactorily:  
To complete the examination satisfactorily, students must obtain at least 50% of the marks available for the examination.
- 3 Penalties for late submission of required work:  
Not applicable.
- 4 Requirements for student to be awarded a passing grade in the course:  
To be assured of receiving a passing grade a student must achieve at least 50% in the examination and at least 50% of the available weighted marks for the summative assessment items.
- 5 Method used to combine assessment results to attain final grade:  
The final grades for students will be assigned on the basis of the weighted aggregate of the marks (or grades) obtained for each of the summative assessment items in the course.
- 6 Examination information:  
This is a restricted examination. Candidates are allowed access to specific materials during the examination. The only materials that candidates may use in the restricted examination for this course are: writing materials non-electronic and free from material which could give the student an unfair advantage in the examination); calculators which cannot hold textual information (students must indicate on their examination paper the

make and model of any calculator(s) they use during the examination); translation dictionary (but not a technical dictionary) (With the examiner's approval, candidates may take an appropriate non-electronic translation dictionary into the examination. This will be subject to perusal and, if it is found to contain annotations or markings, it may be removed from the candidate's possession until the appropriate disciplinary action is completed). Students are not permitted to take mobile telephones, pagers or other electronic means of communication into the examination room.

- 7 Examination period when Deferred/Supplementary examinations will be held:  
Any Deferred or Supplementary examinations for this course will be held during the next examination period.
- 8 University Regulations:  
Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. These regulations can be found at the URL <http://www.usq.edu.au/corporateservices/calendar/part5.htm>. Students should also read the Faculty of Business Guide to Policies and Procedures of the Faculty which can be found at the URL <http://www.usq.edu.au/handbook/current/buspolproc.html>.

### **ASSESSMENT NOTES**

- 1 Course weightings of topics should not be interpreted as applying to the number of marks allocated to questions testing those topics in an examination paper. The examination may test material already tested in previous summative assessment items.
- 2 Students can expect that questions in assessment items in this course may draw upon knowledge and skills that they can reasonably be expected to have acquired before enrolling in this course. This includes knowledge contained in pre-requisite courses and appropriate communication, information literacy, analytical, critical thinking, problem solving or numeracy skills. Students who do not possess such knowledge and skills should not expect the same grades as those students who do possess them.
- 3 Course Weightings: Course weightings of topics should not be interpreted as applying to the number of marks allocated to questions testing those topics in an examination paper. The examination may test material already tested in assignments.
