### STAFFING

Examiner: Joseph Mula  
Moderator: Mark Vallely

### REQUISITES

Pre-requisite: ACC1101 Co-requisite: CIS1000

### SYNOPSIS

This course provides students with an introduction to accounting software, together with an analysis of accounting information systems (both manual and electronic). We cover the complete accounting cycle and also the basics of the Goods and Services tax (GST). Enrolment in this course requires continuous access to an IBM PC or IBM compatible microcomputer, either via a student's own arrangements or a USQ study centre. The accounting software can be purchased from the USQ Bookshop.

### OBJECTIVES

The course objectives define the student learning outcomes for a course. The assessment item(s) that may be used to assess student achievement of an objective are shown in parentheses after each objective. On successful completion of this course, students should be able to:

1. demonstrate knowledge in the use of varying computerised accounting packages and decision support tools (Assignment 1, Assignment 2, Examination)
2. acquire skills and knowledge in using the Mind Your Own Business (MYOB) accounting software package (Assignment 1, Assignment 2, Examination)
3. understand the major business cycles and the operation and impact of the GST regime upon Australian firms (Assignment 1, Assignment 2, Examination)
4. demonstrate an understanding of the complete accounting cycle (source documents; journals; ledgers; through to closing and reversing entries) (Assignment 1, Assignment 2, Examination)
5. process business transactions and events using a manual accounting system of specialised journals, control accounts and subsidiary ledgers (Assignment 1, Assignment 2, Examination)

6. prepare classified financial reports (balance sheet; income statement) (Assignment 1, Assignment 2, Examination)
7. discuss the role and function of internal and computerised controls in the operation of modern business organisations (Assignment 1, Assignment 2, Examination)
8. demonstrate understanding of sound ethical judgement in relation to the accounting information system (Assignment 1, Assignment 2, Examination)
9. appreciate and apply the core concepts associated with computerised accounting information systems (Assignment 1, Assignment 2, Examination)
10. demonstrate knowledge of fraudulent activities in accounting and how to implement security against such activities (Assignment 1, Assignment 2, Examination).

## IMPORTANT ASSESSMENT INFORMATION

- 1 Attendance requirements:  
It is the students' responsibility to attend and participate appropriately in all activities (such as lectures, tutorials, laboratories and practical work) scheduled for them, and to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration.
- 2 Requirements for students to complete each assessment item satisfactorily:  
To satisfactorily complete an individual assessment item a student must achieve at least 50% of the marks. (Depending upon the requirements in Statement 4 below, students may not have to satisfactorily complete each assessment item to receive a passing grade in this course.)
- 3 Penalties for late submission of required work:  
If students submit assignments after the due date without prior approval then a penalty of 20% of the total marks available for the assignment will apply for each working day late, eg, if the assignment is worth 150 marks, the student will receive 30 marks (20% of 150) penalty for each working day late.
- 4 Requirements for student to be awarded a passing grade in the course:  
To be assured of receiving a passing grade a student should attempt all of the weighted assessment items, achieve an aggregated mark of at least 50% of the total marks allocated for the assignments, achieve at least 50% in the examination, and at least 50% of the total weighted marks available for the course.
- 5 Method used to combine assessment results to attain final grade:  
The final grades for students will be assigned on the basis of the aggregate of the weighted marks obtained for each of the summative assessment items in the course.
- 6 Examination information:  
This is a restricted examination. Candidates are allowed access to specific materials during the examination. The only materials that candidates may use in the restricted examination for this course are: writing materials (non-electronic and free from material which could give the student an unfair advantage in the examination); calculators which

cannot hold textual information (students must indicate on their examination paper the make and model of any calculator(s) they use during the examination). Students are not permitted to take mobile telephones, pagers or other electronic means of communication into the examination room.

- 7 Examination period when Deferred/Supplementary examinations will be held:  
Any Deferred or Supplementary examinations for this course will be held during the next examination period.
- 8 University Regulations:  
Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. These regulations can be found at the URL <http://www.usq.edu.au/corporateservices/calendar/part5.htm>. Students should also read the Faculty of Business Guide to Policies and Procedures of the Faculty which can be found at the URL <http://www.usq.edu.au/handbook/current/buspolproc.html>.

## **ASSESSMENT NOTES**

- 1 Assignments: (i) The due date for an assignment is the date by which a student must despatch the assignment to the USQ, both manually and electronically. (ii) Students must retain a copy of each assignment submitted for assessment. This must be produced within 24 hours if required by the Examiner. (iii) The Examiner may grant an extension of the due date of an assignment only in extenuating circumstances. Computer systems failure will not be valid grounds for applications for extension of assignment due dates. If students wish to claim extenuating circumstances then they shall provide validated documentary evidence explaining the circumstances prior to relevant due date. The Examiner shall consider the statement and decide on the outcome. No extension will be granted if an extension is applied for after the due date of the assignment eg, a request for an extension included with the late assignment will not be granted. (iv) No extension will be granted after the solution has been made available to students. (v) Assignments are to be submitted with the appropriate assignment cover. (vi) The Examiner will not accept submission of assignments by facsimile.
- 2 Course weightings: Course weightings of topics should not be interpreted as applying to the number of marks allocated to questions testing those topics in an examination paper. The examination may test material already tested in assignments.

## **OTHER REQUIREMENTS**

- 1 Learning resources: Prescribed texts and materials (see above); recommended reference materials (see above); printed Introductory Book\*, and Study Book/s\*; and course Website accessible via USQConnect. \*part of the study package available from the USQ Bookshop
  - 2 Computer/Software requirements will be outlined in the initial lecture for on-campus students.
  - 3 Students are required to have or have access to a personal computer system that is fully operational PRIOR to the commencement of the semester in which the course is offered.
