SYNOPSIS

This course involves a review of the literature associated with a project selected for study. Students will nominate a substantial project that will incorporate significant theoretical issues as well as providing practical experiences relevant to their career development. The project may be sponsored by the student's employer. The literature review will identify the major issues associated with the project and provide a theoretical and conceptual basis for the project. Enrolment in this course is subject to the availability of a supervisor.

OBJECTIVES

The course objectives define the student learning outcomes for a course. The assessment item(s) that MAY be used to assess student achievement of an objective are shown in parenthesis after each objective. On successful completion of this course, students should be able to:

1. identify suitable research topics;
2. undertake independent research;
3. demonstrate appropriate communication skills; and
4. report research outcomes.
