RATIONALE

Play is considered one of the most important vehicles for learning for young children. Play is intrinsically motivated, an end in itself. It is through play that physical development, social development, intellectual development and emotional development are nurtured and fostered. With the increased awareness of the need for child responsive practice in programming for young children, play comes into its own as the most appropriate practice.

SYNOPSIS

This course will introduce play as a vehicle for learning and seeks to introduce students to appropriate practice in programming in child care centres. This course considers play in a developmental perspective and investigates types of play, general patterns of play, general characteristics of play and appropriate play materials. The course also considers the creation of motivating and challenging play environments and the way that creativity and the growth of children's art develops through play. Aspects such as gender differences, play therapy and play in special populations are also considered in prior to school settings. **IMPORTANT NOTE:** Working with Children: State law in Queensland requires that all adults (including university students, pre-service educators, trainers, vocational teachers, industry educators) working with children under the age of 18, in the State of Queensland*, obtain approval before commencing such work. Many education courses include a practical component (professional experience, project work, research, assessment etc.) that may require engagement with children under the age of 18. It is your responsibility to ensure that you possess a current suitability card (Blue Card) before commencing any practical components of this course. **DO NOT PARTICIPATE IN ANY PRACTICAL EXPERIENCE WITH CHILDREN UNDER 18 UNLESS YOU POSSESS A CURRENT 'BLUE CARD'.** For further information: <http://www.childcomm.qld.gov.au/employment/bluecard/informationSheets.html> *If you are undertaking practical experience outside the State of Queensland, Australia you should check local requirements.
