Course specification

Description: Psychosocial Foundations of Nursing 2

Subject	Cat-nbr	Class	Term	Mode	Units	Campus
NUR	2070	50339	1, 2006	ONC	1.00	Toowoomba

Academic group:	FOSCI
Academic org:	FOS004
Student contribution band:	National Priority Nursing
ASCED code:	060301

STAFFING

Examiner: Jill Scanlan

Moderator: Cath Rogers-Clark

OTHER-REQUISITES

Recommended prior study: NUR1020 and NUR2010

RATIONALE

Nurses work with people who are experiencing changes in their lives relating to a potential or actual alteration in health status, or who are experiencing a normal life transition (such as childbirth), as well as with people who wish to maintain their good health. Consequently, students of Nursing need to develop a strong awareness of, respect for, and insight into the psychological, social, spiritual and cultural aspects and needs of people. To do this, nursing students must focus on self-awareness and self-development, to make possible the therapeutic use of 'self' in the nurse-patient relationships. Psychosocial Foundations of Nursing 2 offers a theoretical basis for the study of self and people across the lifespan as individuals, members of a family, community and society, and consumers of health care.

SYNOPSIS

Using a situated learning approach, this course uses nursing and sociological theories to explore the psycho-social, spiritual and cultural needs of people requiring nursing care. Students are encouraged to apply theory based on researched evidence to develop a deeper understanding of, and appreciation of, the needs of people from a variety of backgrounds, who need individualised, sensitive nursing care during an episode of vulnerability. This course also explores ways in which nurses can preserve integrity in their patients, through the provision of holistic care.

OBJECTIVES

On successful completion of this course, students will be able to:

1. apply sociological theory to understand inequality in health and health care, and the health needs of people in disadvantaged groups of society;

2. apply nursing research to develop an appropriate knowledge base of the psycho-social, spiritual and cultural experiences and needs of people experiencing vulnerability because of an acute or chronic illness;
3. develop and document a plan of nursing care designed to preserve integrity by addressing the psychosocial, spiritual and cultural needs of individuals experiencing an acute or chronic illness; and
4. demonstrate skills of scholarly inquiry, critical thinking and professional writing.

TOPICS

Description	Weighting (%)
1. The Social Model of Health - Health as a social product, Health inequalities: class, race and gender, working with difference, assisting people who are vulnerable & marginalised through culture, racial, gender, sexual identity, age or religious differences.	40.00
2. Preserving Integrity: experiences of and responses to health and illness, sexuality in health and illness, experiences of ageing, living with a chronic illness, living through an acute illness, living with a terminal illness, death and dying/loss and grief	60.00

TEXT and MATERIALS required to be PURCHASED or ACCESSED

ALL textbooks and materials are available for purchase from USQ BOOKSHOP (unless otherwise stated). Orders may be placed via secure internet, free fax 1800642453, phone 07 46312742 (within Australia), or mail. Overseas students should fax +61 7 46311743, or phone +61 7 46312742. For costs, further details, and internet ordering, use the 'Textbook Search' facility at <http://bookshop.usq.edu.au> click 'Semester', then enter your 'Course Code' (no spaces).

STUDENT WORKLOAD REQUIREMENTS

ACTIVITY	HOURS
Lectures	26.00
Private Study	120.00
Tutorials	26.00

ASSESSMENT DETAILS

Description	Marks out of	Wtg(%)	Due date
WEEKLY QUIZZES	40.00	40.00	07 Mar 2006 (see note 1)
GROUP PRESENTATION (ORAL)	80.00	40.00	07 Mar 2006 (see note 2)
REFLECTION	10.00	20.00	07 Mar 2006 (see note 3)

NOTES

1. Due dates are included in the course guide (refer to Study Schedule).
2. Presentation dates are included in the course guide (refer to Study Schedule).
3. Reflection on simulated clinical decision making and group activity (500 words). Due one calendar week following the group presentation.

IMPORTANT ASSESSMENT INFORMATION

- 1 Attendance requirements:

It is the students' responsibility to attend and participate appropriately in all activities (such as lectures, tutorials, laboratories and practical work) scheduled for them, and to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration.

- 2 Requirements for students to complete each assessment item satisfactorily:
To satisfactorily complete an individual assessment item a student must achieve at least 50% of the marks. (Depending upon the requirements in Statement 4 below, students may not have to satisfactorily complete each assessment item to receive a passing grade in this course.)
- 3 Penalties for late submission of required work:
If students submit the assignment after the due date without prior approval then a penalty of 10% of the total marks gained by the student for the assignment will apply for each working day late.
- 4 Requirements for student to be awarded a passing grade in the course:
To be assured of receiving a passing grade a student must gain at least 50% of the available marks for each of the total weighted assessment items. Students who do not qualify for a Passing grade may, at the discretion of the Examiner, be awarded a Supplementary Examination and/or assigned additional work to demonstrate to the Examiner that they have achieved the required standard. It is expected that such students will have gained at least 45% of the total marks available for all summative assessment items. (or be assessed as close to a grade of C- on all summative assessment items.)
- 5 Method used to combine assessment results to attain final grade:
The final grades for students will be assigned on the basis of the aggregate of the weighted marks obtained for each of the summative assessment items in the course.
- 6 Examination information:
There is no examination in this course.
- 7 Examination period when Deferred/Supplementary examinations will be held:
As there are no examinations in this course, there will be no deferred or supplementary examinations.
- 8 University Regulations:
Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. These regulations can be found at the URL <http://www.usq.edu.au/corporateservices/calendar/part5.htm> or in the current USQ Handbook.

ASSESSMENT NOTES

- 9 The due date for an assignment is the date by which a student must despatch the assignment to the USQ. The onus is on the student to provide proof of the despatch date, if requested by the Examiner.
- 10 Students who have undertaken all of the required assessments in a course but who have failed to meet some of the specified objectives of a course within the normally prescribed time may be awarded the temporary grade: IM (Incomplete - Make up). An IM grade will only be awarded when, in the opinion of the examiner, a student will be able to achieve the remaining objectives of the course after a period of non directed personal study.
- 11 Students who, for medical, family/personal, or employment-related reasons, are unable to complete an assignment or to sit for an examination at the scheduled time may apply

to defer an assessment in a course. Such a request must be accompanied by appropriate supporting documentation. One of the following temporary grades may be awarded IDS (Incomplete - Deferred Examination; IDM (Incomplete Deferred Make-up); IDB (Incomplete - Both Deferred Examination and Deferred Make-up).

- 12 Students can expect that questions in assessment items in this course may draw upon knowledge and skills that they can reasonably be expected to have acquired before enrolling in the course. This includes knowledge contained in pre-requisite courses and appropriate communication, information literacy, analytical, critical thinking, problem solving or numeracy skills. Students who do not possess such knowledge and skills should not expect to achieve the same grades as those students who do possess them.
