<b>Student contribution band:</b>	National Priority Nursing
<b>ASCED code:</b>	060301

### STAFFING

Examiner: Lorna Robertson

Moderator: Janet Rankin

### OTHER-REQUISITES

Recommended prior study: 12 BNUR courses

### RATIONALE

A complex and multi-faceted relationship exists between the health of the individual and that of the family. Family health standards strongly influence individual health practice, hence the family, rather than the individual becomes a prime focus for nursing care. This course, with its wellness perspective, is designed to prepare students for the broader application of nursing to the family as a client, so as to promote family health and integrity. More specific areas of family health as they pertain to children and youth, and reproductive function will be examined.

### SYNOPSIS

This Course examines contemporary forms of the family through a variety of theoretical perspectives. Students are encouraged to use knowledge of family theory to reflect on their own experiences of family and nursing. Students relate clinical decision making to families and develop nursing skills promoting wellness for healthy and high-risk family systems. Students will explore the special health needs of children and youth and of families during their reproductive years.

### OBJECTIVES

On completion of this course students will be able to:

1. demonstrate appropriate knowledge and skills so as to promote family health through the unique nursing, collaborative nursing and primary health provider roles;
2. apply understanding of human-health-environment interactions to promote health at individual and family levels;
3. document plans for family members to be active participants in the process of care;

4. demonstrate the ability to apply family theory and nursing care principles to health as it pertains to children and youth;
5. demonstrate the ability to apply family theory and nursing care principles to a family with a specific health problem eg reproductive functions;
6. relate family wellness activities and levels of health promotion to the role of the nurse;
7. examine multicultural families from a sociological perspective;
8. attain Clinical objectives: assess individual and family systems; identify family strengths and problems; plan nursing care of families; support families as clients toward appropriate family centred goals; identify and plan care for children and youth within a family context; identify and plan care for families with problems with reproductive function; identify health service resources available to families; document family nursing care; maintain accurate medication calculations for safe practice in relation to family nursing practice.

## TOPICS

	Description	Weighting (%)
1.	Introduction to Nursing and Family Health	5.00
2.	What is Family?	5.00
3.	Family Structure/Functions	10.00
4.	Family Developmental Process	10.00
5.	Family Health - What is Family Health?	15.00
6.	Children's Health	20.00
7.	Youth Health	20.00
8.	Reproductive Health	15.00

## TEXT and MATERIALS required to be PURCHASED or ACCESSED

ALL textbooks and materials are available for purchase from USQ BOOKSHOP (unless otherwise stated). Orders may be placed via secure internet, free fax 1800642453, phone 07 46312742 (within Australia), or mail. Overseas students should fax +61 7 46311743, or phone +61 7 46312742. For costs, further details, and internet ordering, use the 'Textbook Search' facility at <http://bookshop.usq.edu.au> click 'Semester', then enter your 'Course Code' (no spaces).

## STUDENT WORKLOAD REQUIREMENTS

ACTIVITY	HOURS
Private Study	142.00
Tutorials	28.00

## ASSESSMENT DETAILS

Description	Marks out of	Wtg(%)	Due date
ATTENDANCE AT WORKSHOPS	1.00	1.00	07 Mar 2006 (see note 1)
CHILD SAFETY EDUCATION	1.00	1.00	07 Mar 2006 (see note 2)
ASSIGNMENT 1	50.00	30.00	27 Mar 2006
ASSIGNMENT 2	100.00	70.00	09 Jun 2006

### NOTES

1. Refer to Assessment Note 12. for details regarding participation in On-campus Workshops.
2. Refer Important Assessment Information no. 2

## IMPORTANT ASSESSMENT INFORMATION

- 1 Attendance requirements:  
Participation in On-campus Workshops. The skills components of this course will be taught in two, one-day compulsory workshops held on campus. During these workshops,

students will engage in practice of techniques for a variety of situations. If circumstances prevent a student from attending a workshop, the student must contact the examiner to arrange an alternative activity. This could be a written assignment based on the material covered in the missed workshop. Attendance at the two workshops and/or completion of one or more alternative activities at a standard judged to be appropriate by the examiner is required before the 1 mark for the workshops can be awarded.

- 2 Requirements for students to complete each assessment item satisfactorily:  
To complete an assessment item satisfactorily, students must obtain at least 50% of the marks available for that assessment item. To complete the Child Safety Education assessment satisfactorily, the education module from Queensland Health, Child Safety Unit, "Child Abuse and Neglect" must be downloaded and studied. A signed declaration (in the Course Guide) must be completed to gain the 1 mark for Child Safety Education.
- 3 Penalties for late submission of required work:  
If students submit assignments after the due date without prior approval then a penalty of 20% of the total marks gained by the student for the assignment will apply for each working day late.
- 4 Requirements for student to be awarded a passing grade in the course:  
To be assured of a passing grade, students must demonstrate, via the summative assessment items, that they have achieved the required minimum standards in relation to the objectives of the course by satisfactorily completing the assignments.
- 5 Method used to combine assessment results to attain final grade:  
The final grades for students will be assigned on the basis of the weighted aggregate of the marks obtained for each of the summative assessment items in the course.
- 6 Examination information:  
There are no examinations in this course.
- 7 Examination period when Deferred/Supplementary examinations will be held:  
There are no examinations in this course.
- 8 University Regulations:  
Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. These regulations can be found at the URL <http://www.usq.edu.au/corporateservices/calendar/part5.htm> or in the current USQ Handbook.

## **ASSESSMENT NOTES**

- 9 The due date for an assignment is the date by which a student must despatch the assignment to the USQ. The onus is on the student to provide proof of the despatch date, if requested by the Examiner.
- 10 The examiner may grant an extension of the due date of an assignment in extenuating circumstances.
- 11 Students can expect that questions in assessment items in this course may draw upon knowledge and skills that they can reasonably be expected to have acquired before enrolling in the course. This includes knowledge contained in pre-requisite courses and appropriate communication, information literacy, analytical, critical thinking, problem solving or numeracy skills. Students who do not possess such knowledge and skills should not expect to achieve the same grades as those students who do possess them.
