RATIONALE

In keeping with the emergent curriculum that typifies early childhood education, multilevel education is based on a learning environment where the stage of development and individual differences of each child are placed at the centre of the curriculum. Whether in a single-grade classroom or an integrated P-3 small rural setting, catering for individual needs in a context of social interaction forms the foundation of a multilevel learning community. In order to be responsive to a multilevel learning framework it is important for pre-service teachers to develop a philosophy and methodology consistent with early childhood principles that translate into effective decision making.

SYNOPSIS

In light of P-3 curriculum documents, this course will explore individual and group management in multilevel learning environments. Accessing appropriate resources (including human, material and web-based) and the development of community partnerships (including rural school and classroom settings) will be highlighted. The ideals of early childhood philosophy and methodology will be revisited in order to effectuate professional decision making in organising a creative learning environment, developing assessment tools and curriculum design. A teaching practicum experience will constitute the culmination of the course. This course emphasises literacy correctness in all its forms. **IMPORTANT NOTE:** Working with Children: State law in Queensland requires that all adults (including university students, pre-service educators, trainers, vocational teachers, industry educators) working with children under the age of 18, in the State of Queensland*, obtain approval before commencing such work. Many education courses include a practical component (professional experience, project work, research, assessment etc.) that may require engagement with children under the age of 18. It is your

responsibility to ensure that you possess a current suitability card (Blue Card) before commencing any practical components of this course. **DO NOT PARTICIPATE IN ANY PRACTICAL EXPERIENCE WITH CHILDREN UNDER 18 UNLESS YOU POSSESS A CURRENT 'BLUE CARD'**. For further information:

ASSESSMENT NOTES

- 1 The due date for an assignment is the date by which a student must despatch the assignment to the USQ. The onus is on the student to provide proof of the despatch date, if requested by the examiner.
