The skills particularly of reading, writing, listening and speaking require specialised attention.

SYNOPSIS

There are three parts to the course; each part is conducted simultaneously. Students develop reading skills by processing a range of texts typical of undergraduate reading styles. They also develop academic expository writing skills. The section on listening and speaking develops skills in participating in tutorial presentations at first year university level.

OBJECTIVES

On successful completion of this course students should be able to perform the following tasks in English:
