

The University of Southern Queensland

Course specification

This version produced 17 Jul 2008.

The current and official versions of the course specifications are available on the web at
<<http://www.usq.edu.au/coursespecification/current>>.

Please consult the web for updates that may occur during the year.

Description: Introduction to Business Programming

Subject	Cat-nbr	Class	Term	Mode	Units	Campus
CIS	1001	66450	2, 2007	ONC	1.00	Fraser Coast

Academic group:	FOBUS
Academic org:	FOB005
Student contribution band:	2
ASCED code:	020103

STAFFING

Examiner: Shelly Grist

OTHER REQUISITES

Students are required to have access to a personal computer, e-mail capabilities and Internet access to USQConnect. Current details of computer requirements can be found at
<http://www.usq.edu.au/business/aboutfob.htm>

RATIONALE

While the power and capability of programming languages have increased dramatically over the last few decades the basic concepts inherent in all of them have changed little. These need to be mastered before the full potential of a language can be exploited for useful purposes. Coupled with this requirement is the need to also understand and effectively apply object-based, object-oriented, event-driven programming techniques. All of the contemporary programming languages provide these features to a lesser or greater extent and learning to apply them is the first step to developing well constructed software applications in the future.

SYNOPSIS

This course aims to introduce students to programming in a practical way. JavaScript is used to demonstrate concepts and techniques that are fundamental to the development of efficient and effective solutions in any programming language. Students will create interactive Web pages, and in doing so discover the practical use of variables, functions, operators, conditional statements and loops, event handlers, objects, string handling, and other general programming techniques, as well as advanced features of the JavaScript language. Assuming no previous programming experience, the course provides ample opportunity to learn programming in a relatively inexpensive and unimposing environment.

OBJECTIVES

On completion of this course students will be able to:

1. understand program design and development, incorporating problem solving skills and algorithm construction (Assignment 1, Assignment 2, Examination)
2. understand and apply programming concepts including data types, variables and constants, program control structures, procedures and parameter passing, array processing and functions (Assignment 1, Assignment 2, Examination)
3. understand introductory object oriented concepts by using and applying objects and object libraries (Assignment 1, Assignment 2, Examination)
4. understand and utilise programming standards for effective testing and debugging (Assignment 1, Assignment 2, Examination).

TOPICS

Description	Weighting (%)
1. Fundamentals of programming	20.00
2. Object-based programming	20.00
3. Array and file processing	10.00
4. Algorithm design and problem solving	50.00

TEXT and MATERIALS required to be PURCHASED or ACCESSED

ALL textbooks and materials are available for purchase from USQ BOOKSHOP (unless otherwise stated). Orders may be placed via secure internet, free fax 1800642453, phone 07 46312742 (within Australia), or mail. Overseas students should fax +61 7 46311743, or phone +61 7 46312742. For costs, further details, and internet ordering, use the 'Textbook Search' facility at <http://bookshop.usq.edu.au> click 'Semester', then enter your 'Course Code' (no spaces).

Constant access to or purchase of the following texts and materials is required

Lahey, H (ed) 2000, *Information systems developers handbook: a road map for students*, University of Southern Queensland, Toowoomba, Queensland.

(This handbook is available on the USQ website at <http://www.usq.edu.au/business/infosys/isdevelhandbook.htm>)

Wilton, P 2004, *Beginning JavaScript*, 2nd edn, Wiley Publishing, Indianapolis, Indiana.

REFERENCE MATERIALS

Reference materials are materials that, if accessed by students, may improve their knowledge and understanding of the material in the course and enrich their learning experience.

None.

STUDENT WORKLOAD REQUIREMENTS

ACTIVITY	HOURS
Laboratory or Practical Classes	14.00
Lectures	28.00
Private Study	110.00
Tutorials	14.00

ASSESSMENT DETAILS

Description	Marks out of	Wtg(%)	Due date
ASSIGNMENT 1	100.00	10.00	07 Sep 2007
ASSIGNMENT 2	100.00	30.00	19 Oct 2007
2 HOUR RESTRICTED EXAM	60.00	60.00	END S2 (see note 1)

NOTES

1. The examination is scheduled to be held in the end-of-semester examination period. Students will be advised of the official examination date after the timetable has been finalised.

IMPORTANT ASSESSMENT INFORMATION

- 1 Attendance requirements:
It is the students' responsibility to attend and participate appropriately in all activities (such as lectures, tutorials, laboratories and practical work) scheduled for them, and to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration.
- 2 Requirements for students to complete each assessment item satisfactorily:
To satisfactorily complete an individual assessment item a student must achieve at least 50% of the marks. (Depending upon the requirements in Statement 4 below, students may not have to satisfactorily complete each assessment item to receive a passing grade in this course.)
- 3 Penalties for late submission of required work:
If students submit assignments after the due date without prior approval of the examiner, then a penalty of 5% of the total marks gained by the student for the assignment may apply for each working day late up to ten working days at which time a mark of zero may be recorded. No assignments will be accepted after model answers have been posted.
- 4 Requirements for student to be awarded a passing grade in the course:
To be assured of receiving a passing grade a student must achieve at least 50% of the total weighted marks available for the course.
- 5 Method used to combine assessment results to attain final grade:
The final grades for students will be assigned on the basis of the aggregate of the weighted marks obtained for each of the summative assessment items in the course.
- 6 Examination information:

This is a restricted examination. Candidates are allowed access to specific materials during the examination. The only materials that candidates may use in the examination for this course are (i) Writing materials: non-electronic and free from material which could give the student an unfair advantage in the examination; (ii) Translation dictionaries: with the Examiner's approval, candidates may, take an appropriate non-electronic translation dictionary into the examination. This will be subject to perusal and, if it is found to contain annotations or markings that could give the candidate an unfair advantage, it may be removed from the candidate's possession until the appropriate disciplinary action is completed; (iii) Calculators: calculators which cannot hold textual information (students must indicate on their examination paper the make and model of any calculator(s) they use during the examination); (iv) One A4 size sheet of notes written or typed on one or both sides PLEASE NOTE that this sheet must be turned in with examination booklet.

- 7 Examination period when Deferred/Supplementary examinations will be held:
Any Deferred or Supplementary examinations for this course will be held during the next examination period.
- 8 University Regulations:
Students should read USQ Regulations 5.1 Definitions, 5.6 Assessment, and 5.10 Student Academic Misconduct for further information and to avoid actions which might contravene university regulations. These regulations can be found at <http://www.usq.edu.au/corporateservices/calendar/part5.htm>. Students should also read the Faculty of Business Policies and Procedures which can be found at <http://www.usq.edu.au/business/aboutfob.htm>.

ASSESSMENT NOTES

- 1 Assignments: (i) The due date for an assignment is the date by which a student must submit the assignment to the USQ. (ii) Students must retain a copy of each assignment submitted for assessment. This must be produced within 24 hours if required by the examiner. (iii) In accordance with university policy, the examiner may grant an extension of the due date of an assignment in extenuating circumstances. (iv) The examiner will normally only accept assessments that have been written, typed or printed on paper-based media. (v) In the event that a due date for an assignment falls on a local public holiday in their area, such as a show holiday, the due date for the assignment will be the next day. Students are to note on the assignment cover the date of the public holiday for the examiner's convenience.
- 2 Course weightings: Course weightings of topics should not be interpreted as applying to the number of marks allocated to questions testing those topics in an examination paper.
- 3 Guidelines for assignments: Unless otherwise directed by the examiner, all written and oral assignments submitted by students must conform to the guidelines laid out in the 'Communication skills handbook: how to succeed in written and oral communication' and the 'Information systems developers handbook'. Any work not prepared in accordance with these guidelines may be subject to penalty or requirement for resubmission.
- 4 Make-up work: Students who have undertaken all of the required assessments in a course but who have failed to meet some of the specified objectives of a course within the normally prescribed time may be awarded the temporary grade: IM (Incomplete - Make up). An IM grade will only be awarded when, in the opinion of the examiner, a student will be able to achieve the remaining objectives of the course after a period of non-directed personal study.
- 5 Deferred work: Students who, for medical, family/personal, or employment-related reasons, are unable to complete an assignment or to sit for an examination at the scheduled time

may apply to defer an assessment in a course. Such a request must be accompanied by appropriate supporting documentation. One of the following temporary grades may be awarded: IDS (Incomplete - Deferred Examination); IDM (Incomplete Deferred Make-up); IDB (Incomplete - Both Deferred Examination and Deferred Make-up).

OTHER REQUIREMENTS

- 1 Learning resources: Prescribed texts and materials (see above); recommended reference materials (see above); printed Introductory Book*; and course Website accessible via USQConnect. *part of the study package available from the USQ Bookshop
 - 2 E-mail and Internet access: Students will require access to e-mail and Internet access to USQConnect for this course.
-
