OTHER REQUISITES

State law in Queensland (Australia) requires that all adults working/undertaking professional experience/researching with children under the age of 18, in the state of Queensland are required to possess a current suitability card (Blue Card). (See "Other Requirements" for further information.) Also see: <http://www.childcomm.qld.gov.au/employment/bluecard/informationSheets.html>.

RATIONALE

Acknowledging multiliteracies and a globalised world necessitates a reconsidering of literacy-related practices in education. It is important to acknowledge that children now form their early concepts about literacy from textual environments that are considerably more complex than for those of their predecessors. As a result, contemporary language and literacy education must base practices on texts from a range of technologies, involving different media, and in recognition of diverse contexts and social purposes for communicating. It is also critical that the significant differences existing between students experiential backgrounds, between maturation and ability levels, and between social and cultural backgrounds are recognised in pedagogy.

SYNOPSIS

Students will engage with socio-critical and inclusive principles and practices relating to literacy education. They will plan for literacy development in a range of classroom contexts of years 1-7 and examine how their practice is linked to theories of language and literacy development. Students will become familiar with National and State literacy initiatives/policies and evaluation programs.

OBJECTIVES

The course objectives define the student learning outcomes for a course. The assessment item(s) that may be used to assess student achievement of an objective are shown in parenthesis. On completion of this course students will be able to:

1. Design effective strategies for teaching reading and writing in Years 1-7 in print and digital contexts (Project)
2. Identify the importance of oral language development to literacy education and specifically phonemic and phonological awareness and the relationship between the sounds (phonics) of our language and their written representation (graphemes) (Presentation)
3. Develop a range of teaching strategies for modelled, guided, reciprocal and independent reading and writing/text construction in years 1-7 classrooms and explicitly link text production and use to real-life contexts, purposes and audiences (Project)
4. Identify key teaching-learning principles for diverse groups including ESL, Indigenous, and students at risk in literacy (Presentation)
5. Plan for learner differences through a range of grouping and learner-centred activities (Project)
6. Write with a clear understanding of structure and purposes and be appropriate models for children (Presentation and Project)
7. Demonstrate knowledge of the English curriculum documents and National Benchmarks (Presentation and Project).
