RATIONALE

Studies of Society and Environment (SOSE) in Australia is one of eight nationally agreed key learning areas (KLAs) which are a progression from the early years learning areas in the Early Years Curriculum Guidelines. Through an inquiry based approach, SOSE facilitates students exploration of social, environmental, historical, economic, political and cultural issues, and encourages the understanding and application of the core values of social justice, democratic process, peace and ecological and economical sustainability. In order to develop effective and appropriate school programs in the SOSE area, teachers need to be familiar with the contested nature of social knowledge and with the consequent history of this curriculum area, as well as its location within a package of broad social pedagogies, both overt and hidden. They also need to be familiar with current curriculum developments in the SOSE area within the contexts in which they are working. In particular students should be aware of the curriculum guidelines published by their Education authorities. In Australia this includes the Early Years Curriculum Guidelines and the Years 1-10 SOSE syllabus and their application.

SYNOPSIS

This course is designed to prepare pre-service educators to begin teaching in the SOSE area, and thus will focus on the formal years of early schooling (Prep to Year 3). Within a framework that acknowledges the contested nature of official social knowledge, and environmental and cultural systems, the course will explore various philosophies and approaches to social education, the

current status of social education as part of the school curriculum and current SOSE curriculum documents.

OBJECTIVES

The course objectives define the student learning outcomes for a course. The assessment item(s) that may be used to assess student achievement of an objective are shown in parenthesis. On completion of this course students will be able to:

1. discuss the nature of the social and environmental education part of the formal school curriculum (Both assignments)
2. critique formal SOSE curriculum programs (Both assignments)
3. articulate personal emerging views on the purpose of the SOSE program in a variety of educational settings (Both assignments)
4. demonstrate understanding of the possibilities for cross-curricular program development through SOSE (Both assignments)
5. Develop classroom-based social teaching programs based upon the Early Years Curriculum Guidelines, the Queensland SOSE syllabus and/or other Curriculum Guidelines published by the relevant education authority in the context of work. (Both assignments)
6. Demonstrate competence in and appropriate use of language and literacy, including spelling, grammar, punctuation and bibliographic referencing.

ASSESSMENT NOTES

- 1 The due date for an assignment is the date by which a student must despatch the assignment to the USQ. The onus is on the student to provide proof of the despatch date, if requested by the examiner.
- 2 Students must retain a copy of each item submitted for assessment. This must be produced within twenty-four (24) hours of receipt of request being made by the examiner. The student must retain this copy until the grade for this course has been finalised.

Students who do not have regular access to postal services or who are otherwise disadvantaged by these regulations may be given special consideration. They should contact the examiner of the course to negotiate such special arrangements.
- 5 Students who have undertaken all of the required assessments in a course but who have failed to meet some of the specified objectives of a course within the normally prescribed time may be awarded the temporary grade: IM (Incomplete - Make up). An IM grade will only be awarded when, in the opinion of the examiner, a student will be able to achieve the remaining objectives of the course after a period of non-directed personal study.
