SYNOPSIS

Concerns about the survival of planet earth and the role played by organisations in creating a sustainable environment have triggered the need for information that is useful for formulating strategy and making decisions. This course is designed to provide the necessary skills for managers to obtain such information. It will help decision makers incorporate environmental costs in their management of processes and products, supply chain, investment, performance appraisal and greenhouse emissions trading. Environmental management accounting allows decision makers to access information which may lead to increased cost savings and reductions in an organisation's environmental impact. With the skills provided in this course managers will have the opportunity to increase their organisation's performance both in financial and environmental terms.

OBJECTIVES

On successful completion of this course, students should be able to:

1. understand and articulate the benefits of environmental management accounting in improving organisational performance and sustainability
2. demonstrate problem-solving skills through the use of environmental management accounting skills necessary to advise and assist management in the sustainable strategy, planning, decision making and control of organisations
3. demonstrate written communication skills by planning and writing a report
4. demonstrate ethical research and inquiry by including an ethical dimension in problem-solving activities

5. demonstrate academic and professional literacy through the research of current issues and debates in environmental management accounting through the examination of techniques, theories, and research
6. demonstrate an understanding of sustainable practice in relation to how environmental management accounting issues flow through communities, economies and the environment.

IMPORTANT ASSESSMENT INFORMATION

- 1 Attendance requirements:
If you are an international student in Australia, you are advised to attend all classes at your campus. For all other students, there are no attendance requirements for this course. However, it is the students' responsibility to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration.
- 2 Requirements for students to complete each assessment item satisfactorily:
To satisfactorily complete an individual assessment item a student must achieve at least 50% of the marks. (Depending upon the requirements in Statement 4 below, students may not have to satisfactorily complete each assessment item to receive a passing grade in this course.)
- 3 Penalties for late submission of required work:
If students submit assignments after the due date without prior approval of the examiner, then a penalty of 5% of the total marks gained by the student for the assignment may apply for each working day late up to ten working days at which time a mark of zero may be recorded.
- 4 Requirements for student to be awarded a passing grade in the course:
To be assured of receiving a passing grade a student must achieve at least 50% of the total weighted marks available for the course.
- 5 Method used to combine assessment results to attain final grade:
The final grades for students will be assigned on the basis of the aggregate of the weighted marks obtained for each of the summative assessment items in the course.
- 6 Examination information:
There is no examination in this course.
- 7 Examination period when Deferred/Supplementary examinations will be held:
Not applicable.
- 8 University Regulations:
Students should read USQ Regulations 5.1 Definitions, 5.6 Assessment, and 5.10 Student Academic Misconduct for further information and to avoid actions which might contravene university regulations. These regulations can be found at <<http://www.usq.edu.au/corporateservices/calendar/part5.htm>>. Students should also read the Faculty of Business Procedures which can be found at <<http://www.usq.edu.au/business/aboutfob.htm>>.

ASSESSMENT NOTES

- 1 Assignments: (i) The due date for an assignment is the date by which a student must despatch the assignment to the USQ. The onus is on the student to provide proof of the despatch date, if requested by the examiner. (ii) Students must retain a copy of each assignment submitted for assessment. This must be produced within 24 hours if required by the examiner. (iii) The examiner may grant an extension of the due date of an assignment in extenuating circumstances. Computer systems failure will not be valid grounds for applications for extension of assignment due dates. If students wish to claim extenuating circumstances then they shall provide validated documentary evidence explaining the circumstances prior to relevant due date. The examiner shall consider the statement and decide on the outcome. No extension will be granted if an extension is applied for after the due date of the assignment. A request for an extension included with the late assignment will not be granted. (iv) No extension will be granted after the solution and results have been made available to students. (v) Assignments are to be submitted in accordance with assignment instructions provided or as directed by the examiner.
- 2 Referencing in assignments: Harvard (AGPS) is the referencing system required in this course. Students should use Harvard (AGPS) style in their assignments to format details of the information sources they have cited in their work. The Harvard (AGPS) style to be used is defined by the USQ Library's referencing guide at <http://www.usq.edu.au/library/help/referencing/default.htm>.
- 3 Course weightings: Course weightings of topics should not be interpreted as applying to the number of marks allocated to any aspects of the assessment assessing those topics.
- 4 Deferred work: Students who, for medical, family/personal, or employment-related reasons, are unable to complete an assignment at the scheduled time may apply to defer an assessment in a course. Such a request must be accompanied by appropriate supporting documentation. A temporary grade of IDM (Incomplete Deferred Make-up) may be awarded.

OTHER REQUIREMENTS

- 1 Computer and software requirements will be outlined in the Introductory book.
 - 2 Students are required to have or have access to a personal computer system and any required software (see above) that are fully operational PRIOR to the commencement of the semester in which the course is offered. Systems failure will not be valid grounds for applications for extension of assignment due dates. Ensure backups are regularly maintained on external storage media, for example, CD, USB drive or floppy disk.
 - 3 Students will require access to email and Internet access to UConnect for this course.
 - 4 Some presentations will be made by students using the Wimba Live Classroom connection. For this, students will require a headset (microphone and speakers) and a webcam if they wish to be seen.
