RATIONALE

Sustainability has become a key consideration in most human activities. Community development workers and others working in community and social contexts have an increasing need to understand sustainability concepts and the key social, economic and environmental challenges in achieving sustainable communities. This course seeks to provide a broad level of understanding of sustainability in a community context with particular emphasis on regional cities.

SYNOPSIS

The course begins by examining the many conflicting definitions of sustainability, a number of key principles and several alternative models of sustainability. These are placed in the context of the prevailing paradigms of western society and the many problems and challenges of the early twenty-first century, especially as they relate to populations and the carrying capacity of local regions and the planet as a whole. A systems approach to sustainability allows the identification of unsustainable activities and key natural resources, especially land, water and energy. Current environmental, economic and social problems can be examined in this context and solutions, both current and proposed, evaluated as to their long term contribution towards sustainability. The Hervey Bay region will be used as a case study in the context of the "sea change" phenomenon, with consideration of such issues as climate change, housing, transport, water and agriculture. Community involvement in sustainability planning is emphasised in the context of the building of social capital and sustainable community structures and organisations. Some alternative strategies for regional community and economic development will be examined including eco-villages.

OBJECTIVES

On completion of this course students will be able to:

1. Compare and contrast various definitions of sustainability;
2. Identify key sustainability principles and indicators;
3. Critically analyse sustainability issues in the context of a systems model of sustainability;
4. Demonstrate an awareness of current local and global sustainability problems, the actions being taken to alleviate them and the likely effectiveness of these solutions;
5. Demonstrate an understanding of the social and economic context of sustainability issues and the importance of community involvement in policy development and planning;
6. Demonstrate an understanding of alternative community responses to achieving sustainability, including local trading schemes and eco-villages.

NOTES

1. This assessment is aligned with Objectives 1, 2, 3, 4.
2. This assessment is aligned with Objectives 2, 3, 4, 5, 6.
3. Discussion contribution is assessed on participation in Study Desk discussions. This assessment is aligned with Objectives 3, 4, 5 and 6.
4. Media Journal is presented in workshops. This assessment is aligned with Objectives 1, 4, 5 and 6.
5. This assessment is aligned with allobjectives.

IMPORTANT ASSESSMENT INFORMATION

- 1 Attendance requirements:

- It is the student's responsibility to attend and participate appropriately in all activities (such as lectures, tutorials, laboratories and practical work) scheduled for them, and to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration. For this course, normal class attendance consists of one 3 hour workshop per week. This course also contains a discussion forum where students' participation is formally assessed and successful participation in that discussion group is required to complete the requirements to be awarded a passing grade in the course.
- 2 Requirements for students to complete each assessment item satisfactorily:
To successfully complete an individual assessment item, a student must achieve at least 50% of the marks or a grade of at least C-. This statement must be read in conjunction with Statement 4 below.
 - 3 Penalties for late submission of required work:
If students submit assignments after the due date without extenuating circumstances and without prior approval, then a penalty of a maximum of 5% of the assigned mark may apply for each working day late, up to a maximum of 10 working days, at which time a mark of zero can be recorded for that assignment.
 - 4 Requirements for student to be awarded a passing grade in the course:
To be assured of receiving a passing grade a student must achieve at least 50% of the total weighted marks available for the course.
 - 5 Method used to combine assessment results to attain final grade:
The final grades for students will be assigned on the basis of the aggregate of the weighted marks obtained for each of the summative assessment items in the course.
 - 6 Examination information:
There is no exam for this course.
 - 7 Examination period when Deferred/Supplementary examinations will be held:
Given the details under (6) above, there are no deferred exams for this course. However, if any deferred/makeup work is granted, it would have to be submitted by a date set by the examiner.
 - 8 University Regulations:
Students should read USQ Regulations 5.1 Definitions, 5.6 Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. These regulations can be found at the URL
<http://www.usq.edu.au/corporateservices/calendar/part5.htm>

ASSESSMENT NOTES

- 9 (a) The due date for an assignment is the date by which a student must either lodge the assignment at the USQ or submit online by midnight on the due date. (b) All Faculty of Arts assignments must be lodged in the submission box at the Fraser Coast Campus no later than 5.00 pm on the due date. Online submission must be made by 12 midnight on the due date. (c) In the event that a due date for an assignment falls on a local public holiday in their area, such as a Show holiday, the due date for the assignment will be the next day. Students are to note on the assignment cover the date of the public holiday for the examiner's convenience. (d). Students must retain a copy of each item submitted for assessment. This must be despatched to USQ within 24 hours if requested by the Examiner. (e) In accordance with University's Assignment Extension Policy (Regulation 5.6.1), the examiner of a course may grant an extension of the due date of an assignment in extenuating circumstances such as documented ill-health. (f) Students who have undertaken all of the required assessments in the course but who have failed to meet some of the specified

objectives of the course within the normally prescribed time may be awarded the temporary grade: IM (Incomplete-Makeup). An IM grade will only be awarded when, in the opinion of the examiner, a student will be able to achieve the remaining objectives of the course after a period of non-directed personal study. (g) Students who, for medical, family/personal, or employment-related reasons, are unable to complete an assignment or sit for an examination at the scheduled time, may apply to defer an assessment in the course. Such a request must be accompanied by appropriate supporting documentation. One of the following temporary grades may be awarded: IDS (Incomplete - Deferred Examination; IDM (Incomplete Deferred Make-up); IDB (Incomplete - Both Deferred Examination and Deferred Make-up).

10 Students will require access to email and have internet access to UConnect for this course.
