REQUISITES

RATIONALE

The expectations of an experienced Registered Nurse and Midwife include a cognisance of the law of their country. If they commit a crime unwittingly they cannot plead ignorance to exempt them from the consequences of their actions. In practice, Registered Nurses and Midwives are faced with many complex legal dilemmas that challenge them to make decisions that will both safeguard themselves and ensure safe practice. To do so effectively, these practitioners need to have a high level of understanding and knowledge of the relevant legal concepts and principles pertaining to their practice.
