

New Students in the Bachelor of Psychology in Business (Springfield Campus)

Welcome to Psychology at USQ. University may or may not be a new experience for you, but we guarantee that you will experience some intellectual (and probably others) challenges along the way and that you will enjoy most parts of your program.

The very first challenging task that we are going to set you is to use the computer to get yourself enrolled. Enrolling in courses (like filling in a Tax form) can often be both daunting and problematic, but you will receive some information upon how to complete the process. You will probably save time and effort if you read the instructions before you attempt to enrol. I know that this is a departure from standard practice where one reads the instructions only as a last resort.

Most of the information you will need to supply is pretty much straight forward. The things you may need to know are the Program name and code, which are

Program Name: Bachelor of Psychology in Business
Program Code: BPSB

The four courses you need to enrol in for Semester 1 are

PSY1010 Foundation Psychology A
PSY1101 Critical Thinking
PSY1102 Interpersonal Communication
MGT1000 Organisational Behaviour

You are enrolling ONC (on campus) on the SPRNG (Springfield) campus.

Have a go at getting yourself enrolled for Semester 1. If you strike problems, somewhere in the documentation will be a phone number you can ring. (Finding this number is the second challenge we present you). We will be holding a session during orientation week to ensure that everyone is enrolled as they should be.

See you in February

Gerry Tehan
Associate Dean – Sciences
Springfield Campus
