Program focus

The program prepares graduates for employment in vocational education and training-related roles. It is particularly designed for practising professional educators and trainers who are seeking to upgrade or formalise their qualifications in education.

Career opportunities

Graduates will be able to operate as effective educators and trainers within a range of post-compulsory education and training settings such as TAFE, technical colleges, industry and community education settings. Graduates are also qualified for the role of training manager in relevant settings, although further postgraduate studies would be well-regarded.

Professional accreditation

Graduates who choose to extend [EDV3500 Competency Based Training and Assessment](#) to meet the requirements for the VET qualification course TAE40110 - *Certificate IV in Training and Assessment* will have met the industry standard for training delivery in Australia's VET system. The program is not accredited with the Queensland College of Teachers.

Program aims

The Bachelor of Vocational Education and Training program aims to graduate students who demonstrate:

- the knowledge, skills, practices and values inherent in contemporary understandings of best practice in vocational education and training, particularly as these understandings are reflected in the expectations of industry and key training organisations

- the qualities and skills required of a USQ graduate (see [The Qualities of a USQ Graduate](#))
- the attributes of a Faculty of Education graduate
- sound levels of knowledge and understanding appropriate to working as educators with learners in the post-compulsory years and in a range of adult education and training settings.
