Program focus

The Juris Doctor is a graduate entry program that provides students with the opportunity for a comprehensive study of law, not only to prepare for practice as a solicitor or barrister in Queensland but also to examine the legal process and its social, political and economic context.

The program aims to equip students with an academic qualification for professional practice with particular specialisations offered in environmental and natural resources law, international law and general practice as well as an extensive specialisation in commercial law.

While this is a focused program preparing students for professional practice with particular skills in applied legal research, it also builds the special capabilities that a legal education can offer, such as complex problem-solving and policy analysis.

Please note this qualification does not entitle graduates to use the title 'Doctor'.

Professional accreditation

The Juris Doctor received accreditation from the Legal Practitioners Admissions Board, Queensland, and the Chief Justice of the Supreme Court of Queensland on 13 March 2007, as an approved academic qualification under the *Supreme Court (Legal practitioner Admission) Rules 2004* (Qld). This will partially satisfy the requirements to practise as a solicitor or barrister in Queensland. (Intending solicitors and barristers must not only complete an approved law degree but also undertake a practical legal training course, either with another university or private provider, or as a supervised program whilst employed in a law firm).
