Program focus

This program is designed for students who hold qualifications in another field and wish to study in the early childhood education area. This fully external program is specifically designed to provide a means by which intending early childhood professionals who are qualified in another sector might undertake additional study to qualify as a Director of a Child Care Centre or work in the profession as a carer. Professionals who already hold a three year teaching degree may complete this Graduate Diploma as a pathway to majoring in Early Childhood Education, if they already hold teacher registration with the Registration Board in their State, Territory or Country. The Graduate Diploma does not, in itself, qualify graduates for teacher registration.

We are currently redeveloping our programs for 2009. This area of study will remain available, with greater flexibility.

Professional accreditation

This Program is accredited by the Queensland Department of Families. International and Interstate students should check the status of this qualification with local authorities. This qualification will not lead to teacher registration.
