

Indigenous Higher Education Pathways Program (IHEP) - IHEPP

	Distance education
Semester intake:	Semester 1 (March) Semester 2 (July)
Residential school:	Toowoomba campus (compulsory)
Standard duration:	6–8 months full-time or 12–18 months part-time.

Notes:

This program is funded by the Commonwealth. Students are not liable for course fees.

Program focus

The Indigenous Higher Education Pathways Program (IHEPP) has been developed to give Indigenous students tertiary preparation skills, with an Indigenous focus.

If you would like to undertake university study but don't have the right school qualifications, or if you have been out of formal education for a while and feel your skills are a bit rusty, IHEPP is for you. The main emphasis of the IHEPP program is to develop computing, communication, mathematical, analytical and study skills necessary for successful tertiary study.

Successful completion of IHEPP may lead to enrolment into a USQ undergraduate program, increased employment opportunities, and the opportunity to apply for entry into other universities.

Program aims

The program aim is to provide equitable access to tertiary study for Indigenous people, who for social, economic and cultural reasons, have missed out on educational opportunities at various stages of their lives. Successful completion of the Indigenous Higher Education Pathways Program (IHEPP) will lead to admission to specified undergraduate award programs of the University.

Program objectives

This program will enable students to:

- gain the necessary pre-tertiary knowledge and skills in numeracy, communication, literacy and computing for entry into USQ's degree programs
- attain the academic study skills required to successfully complete higher education degrees
- demonstrate a strong and positive sense of Indigenous identity, culture and heritage
- develop mastery of skills in each of the learning areas through attendance at residential schools
- develop career and employment potential through the successful completion of the IHEPP courses/program and subsequent future degree programs.

Admission requirements

Although there are no formal requirements, students wishing to be admitted to the program are required to undertake a selection-testing program in order to assess their levels of literacy and numeracy. Where applicants

demonstrate a level of entry skill below that judged necessary for success in the IHEPP or individual courses, they will be advised to undertake pre-tertiary courses/programs through TAFE colleges and/or other agencies.

Students who have successfully completed the IHEPP program will be eligible to seek entry to USQ undergraduate award courses. However, as the courses in the IHEPP program are non-award, there is no possibility of unit or credit transfer to an undergraduate award program.

How to apply

To study the Indigenous Higher Education Pathways Program through Kumbari/Ngurpai Lag and the Centre for Australian Indigenous Knowledges, please complete the [IHEPP Application Form](#) or contact us on Freecall 1800 005 137.

Program structure

To complete the requirements of the program, a student must successfully complete specified non-award courses, with a value of four units, within three terms of first enrolling in the program. Students may choose from the following programs:

HUS7001 Introduction to Computing Basics
HUS7002 Nguya Goolpanie? What Did You Say? Study Skills
HUS7003 Imbala: Hearing to Understand: Thinking to Write
CST7001 Mathematics for Living, or/and
MTS7001 Mathematics Tertiary Preparation
HUS7004 Indigenous Cultural Studies Optional

Students who require a higher-level mathematics course as an entry requirement for a particular award program may choose from one of the Tertiary Preparation Program courses offered by the [Learning and Teaching Support Unit \(LTSU\)](#):

TPP7182 Mathematics Tertiary Preparation Program Level B or
TPP7183 Mathematics Tertiary Preparation Program Level C.

Recommended enrolment pattern

The recommended enrolment pattern for an individual student is dependent on the award program to which the student is seeking entry.

Students should note that they are able to choose more than four courses to study across two or three terms, if desired.

Recommended enrolment pattern for full-time students

For completion in two semesters.

Course	Year of program and semester in which course is normally studied						Residential school (compulsory /optional)	Enrolment requirements
	On-campus (ONC)		External (EXT)		Online (WEB)			
	Year	Sem	Year	Sem	Year	Sem		
Choose one of the following three courses:								
HUS7001 Introduction to Computing Basics			1	1			C	
HUS7002 Nguya Goolpanie? What Did You Say? Study Skills			1	1			C	
HUS7003 Imbala: Hearing to Understand: Thinking to Write			1	2			C	

Course	Year of program and semester in which course is normally studied						Residential school (compulsory /optional)	Enrolment requirements
	On-campus (ONC)		External (EXT)		Online (WEB)			
	Year	Sem	Year	Sem	Year	Sem		
One or both of the following two courses:								
CST7001 Mathematics for Living			1	1			C	
MTS7001 Mathematics Tertiary Preparation			1	2			C	
The following course is not compulsory:								
HUS7004 Indigenous Cultural Studies			1	2			C	

Recommended enrolment pattern for full-time students

For completion in one semester.

Course	Year of program and semester in which course is normally studied						Residential school (compulsory /optional)	Enrolment requirements
	On-campus (ONC)		External (EXT)		Online (WEB)			
	Year	Sem	Year	Sem	Year	Sem		
Choose each of the following three courses:								
HUS7001 Introduction to Computing Basics			1	1			C	
HUS7002 Nguya Goolpanie? What Did You Say? Study Skills			1	1			C	
HUS7003 Imbala: Hearing to Understand: Thinking to Write			1	1			C	
Choose one of the following two courses:								
CST7001 Mathematics for Living			1	1			C	
MTS7001 Mathematics Tertiary Preparation			1	1			C	
The following course is not compulsory:								
HUS7004 Indigenous Cultural Studies								

Recommended enrolment pattern for part-time students

For completion in two semesters.
