Program focus

The Master of Business Research is a research degree that aims to train students in business research either for academic or management purposes. The task of the Master of Business Research student is to undertake a significant piece of research and report it in a scholarly dissertation. The Master of Business Research aims to provide students with opportunities to explore the resolution of particular management problems using specialist knowledge and advanced techniques through conducting research in a specialised area of business, management or information systems.

Program aims

The Master of Business Research aims to produce graduates trained in business research either for academic or management purposes. The task of the Master of Business Research student is to undertake a significant piece of research and report it in a scholarly dissertation. The Master of Business Research aims to provide students with opportunities to explore the resolution of particular management problems using specialist knowledge and advanced techniques through conducting research in a specialised area of business, management or information systems.

Program objectives

On successful completion of this program students will be able to:

- comprehend and evaluate developments in a chosen area of business and critically examine the relationship between such changes and contemporary theory
- identify, critically assess and apply selected research paradigms in terms of their theoretical status and their applicability for resolving contemporary business problems
- undertake, interpret and evaluate management research using acceptable principles and techniques
- develop and support a proactive approach to management decision making
- create a scholarly document.

Admission requirements

Candidates for the Master of Business Research are required to have an appropriate degree in business, commerce or a related field from a recognised university. They must have obtained a minimum average of credit (GPA=5.0 on a 7.0 point scale) in their undergraduate degree or 5.5 or above for the second and third years of the degree.

In exceptional circumstances a candidate may be admitted to the Master of Business Research from a non-business/commerce background. Applicants who have not completed previous tertiary studies in business, commerce or a related field may be required to complete coursework specified by the Director of Postgraduate Studies with advice from the Head of the supervising School. Applicants intending to undertake a dissertation in information systems must have prior studies in information systems or computing.

On application, candidates must be able to provide an outline of the dissertation topic they intend to pursue.

International candidates for admission into this program must meet the University's English language proficiency requirements for postgraduate students. Please refer to [Academic Regulation 5.4](#) of the University Calendar.

Note: Admission to the Master of Business Research is dependent upon the Faculty's capacity to supervise the proposed projects. Prospective candidates should consult with the Director of Postgraduate Studies before preparing their project proposals. Research concentrations within the Faculty of Business are updated periodically. The current list is available at the [Faculty of Business](#).
