Value for money and convenience would be Mt Ommaney Lodge and Rocklea International as they both have a lot of external restaurants and cafes available for food.

## GETTING TO SPRINGFIELD

*UBD Map Reference: Map 256, Q5*

### BY ROAD

From Brisbane Airport:

- From the airport by car, travel via the Gateway Motorway towards the city. As you approach the Kingsford Smith exit (before you get to large Gateway Bridge) you have two alternatives:
  1. You can stay on the Gateway Motorway which joins the Logan Motorway (which are both tollways) – travel towards Ipswich and take the Centenary Highway Springfield exit near the end of the motorway.
  2. Alternatively, you can exit the Gateway Motorway onto Kingsford Smith Drive before you get to the Gateway Bridge, and this leads onto the Inner City Bypass. Take the Milton Road exit near the city and follow Milton Road onto the Centenary Highway which goes directly to Springfield.

From Brisbane:

- From the Centenary Highway, do not take the first Springfield exit (Springfield Parkway). Instead, take the second exit which is the Springfield Greenbank exit. Turn left onto the Springfield Greenbank Arterial Road and then right at the first traffic lights (about 1 km) onto Sinnathamby Boulevard. The USQ Campus is the six-storey building adjacent to the road.
- By car or taxi from the airport will take 45-65 minutes depending on traffic and time of day.
- By taxi from the CBD will take about 25-40 minutes depending on traffic.

### BY TRAIN or BUS

- You can take a train from the Airport to the CBD (Central or Roma Street Stations). From there, you take the train to the Goodna station.
- There are buses (Route 522, 523 and 530) from the Goodna railway station to the campus.

### TAXIS

- Black and White Cabs                      13 1008
- Yellow Cabs                                    13 1924

### CAMPUS

The USQ Building is the main six storey building. Postgraduate courses are held in the lecture rooms on Level 6. The Faculty of Business Administration area is on Level 5.
