Introduction

This is a L^AT_EX template for the “extended-abstract” required for the Project Conference. Just fill in the appropriate words and *leave the formatting commands alone*.

You might need to convert your own picture file (typically in JPEG format) into EPS to include as “yourpic.eps” above. You can use the free jpeg2ps utility, mentioned on the project L^AT_EX web pages, to do this.

A few short sentences to introduce the project. A few short sentences to introduce the project. A few short sentences to introduce the project.

Background

Appropriate background material. Appropriate background material. Appropriate background material.

Objectives

Aim, objectives or design requirements, either in

prose or as bullet points:

1. Your first objective.
2. Your next objective.

Some more about the objectives. Some more about the objectives. Some more about the objectives. Some more about the objectives. Some more about the objectives.

Another Heading

More text describing your design as illustrated in Figure 1. You may have a “Results” heading as well.

Conclusions

Again a few sentences or bullet points.

Acknowledgement

A short sentence only (if applicable).
