

## Post Graduate Infusion (PGI) Program

# For many students, going back to university to study a masters' degree is a big step to take

International students sometimes find that there are additional pressures from having to learn about new cultural practices and having to settle into a new location.

Read the following list. If you answer 'yes' (or even 'maybe') to any one of the questions, then you need to come and find out about the Post Graduate Infusion Program:

- \* Are you concerned about how you might fit into the university context?
- \* Are you wondering how to cope with the demands of university study?
- \* Are you questioning how to best juggle study along with work and/or family commitments or with having to 'learn' about a new culture?
- \* Are you interested in meeting other students as well as university staff?
- \* Do you think you need to know about using computers or accessing online information, searching the internet or finding information?
- \* Would you just like a safe place to 'chill out' once a week or a place where you can just talk?

The PGI Program is a one-stop shop for postgraduate Education students. It is a place where you can just come and find out about the things you don't know!

There is no set agenda. Instead, PGI sets out to respond to students' needs.

Basically, if you would like to know 'what to do when you don't know what to do', then PGI is for you!

**WHERE:** Room G414  
**WHEN:** Mondays 10am – 12md
