

Adding a referencing style to your EndNote program

In order to use the [Australian Guide to Legal Citation 4th \(AGLC UTS Version\)](#) style in EndNote there are two things you need to download:

1. **Legal Reference Types** (This reference type is used for legislation, cases, treaties and other non-standard content types. It overwrites the existing EndNote legal categories) [from this site](#).
2. **AGLC 4th Reference Style** [from this site](#).

Please follow the installation instructions on the UTS website -

<https://www.lib.uts.edu.au/help/referencing/endnote/download-referencing-styles>

Once downloaded

Open your EndNote Library

1. Go to the drop down menu of Output Styles and Select Another Style.
2. Type the first letter of the style or use the Quick Search box to navigate through the list, until you find the correct Style
3. Select the Style and click on Choose.

Troubleshooting

If the style doesn't appear in the list, follow the steps below:

1. In EndNote, navigate to Edit/Preferences/Folder Locations
2. Under Style Folder click on *Select Folder*, navigate to Documents/EndNote/Styles as created above and *Select*
3. Repeat step 5 above

If problems persist, please email the EndNote support team at – endnote@usq.edu.au
