RATIONALE
The development of practical musical ability is a fundamental part of any music program; performing ability in both solo and ensemble situation is the individual's most important avenue for musical expression.

SYNOPSIS
The course content will focus on performance in the student's main area of practical performance. Additionally, this course makes provision for the advancement of ensemble playing skills, in both large and small groups. Each succeeding course in Performance will require students to demonstrate a greater degree of both conceptual and executant skills development.

OBJECTIVES
Having completed the pre-requisite course, and on successful completion of this course students will:

- have further advanced their standard of performance in their chosen field of practical study;
- have further increased their knowledge of the literature of music by the study of carefully selected works from the repertoire relevant to their chosen field of practical study;
have improved their ensemble playing skills by concentrated and consistent work and practice in group performance.
