RATIONALE
This course is designed to permit the student to develop significant expertise in instrumental or vocal pedagogical skills, allowing for a greater degree of musical and technical specialisation than is possible at the undergraduate level.

SYNOPSIS
Effective instrumental or vocal teaching requires a thorough understanding of the instrument/voice and its technical demands, and an in-depth knowledge of the relevant repertoire at all levels of accomplishment. It also requires the ability to structure and teach a suitable course of study at any level and the skill to communicate effectively all the appropriate technical and musical concepts. Equally important is the need to continue the student's own technical and interpretive abilities. All of these pedagogical necessities are included in this and subsequent teaching courses.

OBJECTIVES
On successful completion of this course students will be equipped with the requisite skills to undertake the comprehensive music training of any student from beginner to intermediate level.
