Moderator: Cathy Rogers-Clark

RATIONALE
Students undertaking research need to prepare, plan and implement their research proposal. This course allows students to do so.

SYNOPSIS
This course is the fourth of four dissertation units. Students will complete their dissertation whilst enrolled in this course.

OBJECTIVES
On successful completion of this course students will be able to:

- written the dissertation; and
- submitted the dissertation for examination.

NOTES:
1. The Examiner will provide information about the due date for this assessment item.
2. The Examiner will provide information about the due date for this assessment item.

OTHER REQUIREMENTS

1. Attendance Requirements: It is the students’ responsibility to participate actively in all classes scheduled for them, and to study all material provided to them or required to be accessed by them to maximize their chance of meeting the objectives of the course and to be informed of course-related activities and administration. Students will normally attend one four-day residential school per year of enrolment in the Master of Health course.

2. Examination of Dissertation and Report: The course will be assessed as outlined in the Regulations and Procedures for Assessment and Supervision of Master of Health Candidates, a copy of which will be provided to each student on enrolment in the course. Students are required to give a satisfactory report to the Department of Nursing Research and Higher Degrees Committee by the end of the semester. They will then be given the 1 mark for that report.

3. Minimum Requirements to Pass the Course: The course will be graded as Pass/Fail (P/F). To pass the course, students must gain 1 mark for the Dissertation by the end of the semester and be recommended for a Pass by both examiners appointed in accordance with the Regulations and Procedures for Assessment and Supervision of Master of Health Candidates.

4. Assignments: The due date for an assignment is the date by which a student must dispatch the assignment to the USQ. The onus is on the student to provide proof of the dispatch date, if requested by the examiner. Students must retain a copy of each item submitted for assessment. This must be produced within five days if required by the examiner. In accordance with University's Assignment Extension Policy (Regulation 5.6.1), the examiner of a course may grant an extension of the due date of an assignment in extenuating circumstances. This policy may be found in the USQ Handbook, the Distance Education Student Guide and the Faculty of
Sciences' Orientation Handbook for on-campus students. All students are advised to study and follow the guidelines associated with this policy.
