SYNOPSIS
This course examines young children's exploration of space, materials, environments and the potential of their own bodies through physical activity to establish a basis for skilful movement, creative problem solving and a positive image of self and active play. The course introduces foundational concepts in early childhood education including integration of child development, planning from child study, play as an educative vehicle and the role of the learning environment. Physical experiences for young children from birth to eight years will be related to children's thinking, sequential movement development, and contextual issues. Emphasis will be placed on children's personal achievement, self esteem and attitude towards physical activity.

OBJECTIVES
On successful completion of this course students will be able to:

- define connections between movement, thinking, attitude and context;
- demonstrate awareness of the purpose of perceptual motor experiences;
- select movement experiences and resources suited to children's development;
- plan environments and strategies to support movement exploration;
- relate observations to movement patterns of children 0-8 years;
- use movement experiences as integrating devices across all areas of learning and development.

TOPICS
Description | Weighting (%)  
---|---
1. Contextual and attitudinal influences on young children's movement | 10.00
2. Integrated developmental purposes of movement experiences 20.00
3. Design of environments, resources and physical experiences 30.00
4. Movement patterns birth to eight years 20.00
5. Recognising children's competencies, disposition and interests 10.00
6. Introduction to child-responsive planning 5.00
7. Effective resources to facilitate perceptual motor development 5.00

TEXT and MATERIALS required to be PURCHASED or ACCESSED:
Books can be ordered by fax or telephone. For costs and further details use the 'Book Search' facility at http://bookshop.usq.edu.au by entering the author or title of the text.

REFERENCE MATERIALS
Reference materials are materials that, if accessed by students, may improve their knowledge and understanding of the material in the course and enrich their learning experience.

Cocks, N. 1996, Watch Me, I can do it! Helping Children Overcome Clumsy and Uncoordinated Motor Skills, Simon & Schuster, Roseville, NSW.

**NOTES:**

Date of examination will be advised during semester.

**OTHER REQUIREMENTS**

1 Summative assessment items will be given a numerical score.
2 Course Grades will be calculated by aggregating the weighted result or numerical score for each summative assessment item.
3 All assessment items must be submitted and passed overall.
4 If assignments are submitted after the due date without an approved extension of time, University penalties may be applied.
