**RATIONALE**

It is recognized that many postgraduate students need the opportunity to explore or investigate a topic of their own choosing in order to link more closely their professional interests or needs to their course of studies. Project units are designed to provide such an opportunity.

**SYNOPSIS**

Students will, under the guidance of a member of staff, pursue an in-depth study of a topic relevant to the field of education, and in particular to the focus of the student's major study area. The type of study does not necessarily involve research, but should include a substantial investigatory component leading to the submission of a written research report, material production or essay demonstrating comprehensive and detailed coverage of major concepts, issues, and research/professional literature. All student project proposals will be the subject of a critical review and final topics may be the result of extensive lecturer-student negotiation.

**OBJECTIVES**

On successful completion of the project the students will have:

- Demonstrated the ability to plan, conduct and report on an investigation or other such scholarly activity focused on an issue or topic of significance in the field of education.

IMPORTANT ASSESSMENT INFORMATION

1 Attendance requirements:
   There are no attendance requirements for this course.

2 Requirements for students to complete each assessment item satisfactorily:
   Not applicable.
3 Penalties for late submission of required work:
   If students submit assignments after the due date without prior approval then a
   penalty of 20% of the total marks available for the assignment will apply for each
   week late.

4 Requirements for student to be awarded a passing grade in the course:
   Not applicable.

5 Method used to combine assessment results to attain final grade:
   The course examiner is responsible for awarding grades. Projects developed for
   EDU5351 will be examined initially by the student's supervisor. The supervisor
   will make a recommendation of a grade to the course examiner who will normally
   accept the recommended grade once all the requirements for the course are
   completed. Where the course examiner has any doubts about the appropriateness
   of the grade recommended by the supervisor the project is assessed by a second
   assessor nominated by the course examiner. The course examiner will then decide
   the grade taking into account both grades.

6 Examination information:
   There is no examination in this course.

7 Examination period when Deferred/Supplementary examinations will be held:
   There will be no Deferred or Supplementary examinations in this course.

8 University Regulations:
   Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10

   http://www.usq.edu.au/SECARIAT/calendar/Part5/ or in the printed version of the
   current USQ Handbook.
