RATIONALE
At all levels of education and training the roles of the instructor/teacher include input into the development of the courses for which they have some responsibility. Effective development of curricula requires a sound understanding of the elements of curriculum design, the sources from which they are drawn and the processes involved in the analysis of sources and the manipulation of elements. Those involved in this development need to have detailed knowledge and well developed skills that relate to the issues focusing on the selection, modification and development of courses and their components.

SYNOPSIS
This course focuses on the development of skills, knowledge and attitudes which are involved in the process of curriculum development. It is assumed that students will have above working knowledge of curriculum development. The course involves an analysis of a context into which a course is to be introduced as well as an extensive review of the literature relating to the most appropriate objectives, content, strategies and assessment/evaluation techniques to be incorporated into the proposed program. The actual exercise selected as the practical basis of the course may involve the modification of existing materials, the selection of the most appropriate materials from among competing packages or the development of an entirely new curriculum from first principles.

OBJECTIVES
On successful completion of this course students will be able to:

- Conduct a contextual evaluation to establish the need for a modification to the instructional program with which they are currently working.
• Conduct an in depth input evaluation to establish the most appropriate means of structuring, presenting and assessing/evaluating the proposed instructional program.
• Develop a program based on the context and input evaluations which displays a knowledge of the importance of each element of curriculum design and the relationships between the elements.
• Appreciate the role of academic and professional debate as it relates to the development of curricula.

**TEXT and MATERIALS required to be PURCHASED or ACCESSED:**

Books can be ordered by fax or telephone. For costs and further details use the 'Book Search' facility at [http://bookshop.usq.edu.au](http://bookshop.usq.edu.au) by entering the author or title of the text.

**REFERENCE MATERIALS**

Reference materials are materials that, if accessed by students, may improve their knowledge and understanding of the material in the course and enrich their learning experience.

**IMPORTANT ASSESSMENT INFORMATION**

1. Attendance requirements:
   There are no attendance requirements for this course. However, it is the students' responsibility to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration.

2. Requirements for students to complete each assessment item satisfactorily:
   To complete each of the assessment items satisfactorily, students must obtain at least 50% of the marks available (or at least a grade of C-) for each assessment item.

3. Penalties for late submission of required work:
   If students submit assignments after the due date without prior approval then a penalty of 20% of the total marks available for the assignment will apply for each week late.

4. Requirements for student to be awarded a passing grade in the course:
To be assured of receiving a passing grade a student must achieve at least 50% of the available weighted marks for the summative assessment items.

5 Method used to combine assessment results to attain final grade:
The final grades for students will be assigned on the basis of the weighted aggregate of the marks (or grades) obtained for each of the summative assessment items in the course.

6 Examination information:
There is no examination in this course.

7 Examination period when Deferred/Supplementary examinations will be held:
There will be no Deferred or Supplementary examinations in this course.

8 University Regulations:
Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. These regulations can be found at the URL http://www.usq.edu.au/SECARIAT/calendar/Part5/ or in the printed version of the current USQ Handbook.

ASSESSMENT NOTES

1 Students must retain a copy of each item submitted for assessment. This must be produced within five (5) days if required by the examiner.

2 The examiner may grant an extension of the due date of an assignment in extenuating circumstances.

3 The Faculty will normally only accept assessments that have been written, typed or printed on paper-based media.

4 When there is more than one marker for a single item of assessment, the distributed patterns and means for the different markers will be compared and marks adjusted if necessary.

5 Marking criteria are provided in course material as mark sheets/guides or as part of assignment specifications.

6 Summative assessment items will be given a numerical score.

7 All assessment items must be attempted/submitted with a pass overall gained.

OTHER REQUIREMENTS

1 When there is more than one marker for a single item of assessment, the distribution patterns and means for the different markers will be compared and marks adjusted if necessary.

2 Marking criteria are provided in course material as mark sheets/guides or as part of assignment specifications.

3 Summative assessment items will receive one of the following letter grades: HD, A, B, C, F or I.

4 Course Grades will be calculated by aggregating the weighted result or numerical score for each summative assessment item. Any ungraded assessment requirement will receive a Pass, Fail or Incomplete.
An assignment submitted after the due date without an approved extension by the course examiner will attract a penalty of 1% of assigned marks for each day or part of a day the assignment is late.

All assessment items must be attempted and submitted.
