SYNOPSIS

This course involves the development and implementation of a project. This practical part of the project builds on the literature review in the previous course. It normally involves data gathering and analysis based on a research proposal. Students could use an action learning strategy designed to achieve the aims of the project. The project aims to provide a set of career enhancing experiences for a student. The project will also provide general recommendations on aspects of organisational improvement to an organisation that is involved in the project. Enrolment in this course is subject to the availability of a supervisor.
