RATIONALE
This course provides the student with important music skills which supplement Performance courses. Important elements in the development of a musician are aural awareness and a knowledge of music writing techniques.

SYNOPSIS
This course is a survey of the major formal structures found in Western concert music from the 16th century until the present. It also further develops aural acuity relating to pitch, melody, rhythm, three-part work, dynamics, harmony and form. Each succeeding Music Craft course further develops this acuity.

OBJECTIVES
On successful completion of this course students have:

- acquired basic skills in elementary music analysis;
- further developed their powers of aural observation and awareness.
