Examiner: Kris Martin-McDonald
Moderator: Lorna Robertson

RATIONALE
Inquiry into intra-personal and inter-personal human experience requires sensitive, qualitative methods and any attempts to change human action is best based upon these understandings. This is in contrast to many aspects of the physical and biological world which can be well explained by quantitative methods and can be changed by techno-rational means. These same methods, however, do not help us to understand many important aspects of the social world and the emotional/spiritual world of individuals. This course introduces beginning researchers to the specific practices of qualitative methods of data collection, management, analysis and interpretation.

SYNOPSIS
The course is concerned with the skills of the qualitative researcher including the researcher as instrument, participant observation, individual interviewing, focus-group interviews, grounded theorising text-based research, praxis and action research. The course provides an overview of qualitative data analysis including thematic analysis, grounded theorising, critical incident analysis, theory-based analysis and the use of computers in qualitative data analysis.

OBJECTIVES
On successful completion of this course students will be able to:

- identify their own values, biases and beliefs and show how these are either bracketed or related to their research process and findings;
- demonstrate integrity, sensitivity, openness, honesty and non-judgmental acceptance as a qualitative researcher in an interview situation;
- demonstrate beginning skills in participant observation, individual interviewing, focus-group interviews and grounded theorising text-based research;
- record research data including tape recording, photographs, field notes, observations, journalling;
- manage research data and describe the benefits of using appropriate computer programs to store and manage material from literature reviews and the qualitative data generated by the researcher; and
- select an appropriate method to analyse qualitative data including: thematic analysis, grounded theorising, critical incident analysis, theory-based analysis and the use of computers in qualitative data analysis.

**TEXT and MATERIALS required to be PURCHASED or ACCESSED:**

Books can be ordered by fax or telephone. For costs and further details use the 'Book Search' facility at http://bookshop.usq.edu.au by entering the author or title of the text.

**REFERENCE MATERIALS**

Reference materials are materials that, if accessed by students, may improve their knowledge and understanding of the material in the course and enrich their learning experience.

IMPORTANT ASSESSMENT INFORMATION

1 Attendance requirements:
   There are no attendance requirements for this course. However, it is the students' responsibility to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration.

2 Requirements for students to complete each assessment item satisfactorily:
   To complete each of the assignments satisfactorily, students must obtain at least 50% of the marks available for each assignment.

3 Penalties for late submission of required work:
   If students submit assignments after the due date without prior approval then a penalty of 10% of the total marks available for the assignment will apply for each working day late.

4 Requirements for student to be awarded a passing grade in the course:
   To be assured of receiving a passing grade a student must achieve at least 50% of the available weighted marks for the summative assessment items.

5 Method used to combine assessment results to attain final grade:
   The final grades for students will be assigned on the basis of the weighted aggregate of the marks obtained for each of the summative assessment items in the course.

6 Examination information:
   There is no examination in this course.

7 Examination period when Deferred/Supplementary examinations will be held:
   There will be no Deferred or Supplementary examinations in this course.

8 University Regulations:
   Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. These regulations can be found at the URL http://www.usq.edu.au/SECARIAT/calendar/Part5/ or in the printed version of the current USQ Handbook.

ASSESSMENT NOTES

9 The due date for an assignment is the date by which a student must despatch the assignment to the USQ. The onus is on the student to provide proof of the despatch date, if requested by the Examiner.
10 In the event that a due date for an assignment falls on a local public holiday in their area, such as a Show holiday, the due date for the assignment will be the next day. Students are to note on the assignment cover the date of the public holiday for the Examiner’s convenience.
