SYNOPSIS
This course provides an introduction to the methodology of research in the context of business and commerce. The focus will be on issues such as: topic selection, problem definition, development of research questions, theory construction, research design, and selected data collection tools. Additionally, students will be expected to develop critical thinking skills and the capacity to read and critique a research article. The course is directed at research students who wish to learn about designing and conducting research in the disciplines represented in business and commerce. Students will be expected to develop an understanding of the key components of the research process, as well as the application of research methods appropriate to particular research questions.

OBJECTIVES
On successful completion of this course students will be able to:

- describe the processes involved in topic selection, problem definition and the development of research questions;
- evaluate the role of literature review and theory construction in research;
- analyse alternative approaches to research design and methodology; and
- apply critical thinking skills in reading and critiquing research articles.

NOTES:
1. mini critique
2. essay questions from modules 1 and 3 - 5
3. full critique
4. The examination will contain questions from modules 6 - 9. The examination is scheduled to be held in the end-of-semester examination period. Students will be advised of the official examination date after the timetable has been finalised.

IMPORTANT ASSESSMENT INFORMATION

1 Attendance requirements:
   It is the students' responsibility to attend and participate appropriately in all activities (such as lectures, tutorials, laboratories and practical work) scheduled for them, and to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration. If you are an international student in Australia you are advised to attend all classes at your campus. Failure to attend may infringe the conditions of your student visa.

2 Requirements for students to complete each assessment item satisfactorily:
   To complete the assignments satisfactorily, students must obtain at least 50% of the marks available for the assignments in aggregate. To complete the examination satisfactorily, students must obtain at least 50% of the marks available for the examination.

3 Penalties for late submission of required work:
If students submit assignments after the due date without prior approval then a penalty of 20% of the total marks available for the assignment may apply for each working day late.

4 Requirements for student to be awarded a passing grade in the course:
To be assured of receiving a passing grade a student must attempt all of the summative assessment items, achieve an aggregated mark of at least 50% in the total marks allocated for the assignments, achieve at least 50% in the examination, and at least 50% of the available weighted marks for the summative assessment items.

5 Method used to combine assessment results to attain final grade:
The final grades for students will be assigned on the basis of the weighted aggregate of the marks (or grades) obtained for each of the summative assessment items in the course.

6 Examination information:
TO BE ADVISED

7 Examination period when Deferred/Supplementary examinations will be held:
Any Deferred/Supplementary examinations for this course will be held during the next examination period.

8 University Regulations:
Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. These regulations can be found at the URL http://www.usq.edu.au/corporateservices/calendar/part5.htm. Students should also read the Faculty of Business Guide to Policies and Procedures of the Faculty which can be found at the URL http://www.usq.edu.au/handbook/2004/bus.html.

**ASSESSMENT NOTES**

1 Assignments: (i) The due date for an assignment is the date by which a student must despatch the assignment to the USQ. The onus is on the student to provide proof of the despatch date, if requested by the Examiner. (ii) Students must retain a copy of each item submitted for assessment. This must be produced within 24 hours if required by the Examiner. (iii) The Examiner may grant an extension of the due date of an assignment in extenuating circumstances. Applications for extensions should be in writing and must include supporting documentary evidence. Extensions are only granted in unforeseen and uncontrollable circumstances. The Examiner shall consider all documentary evidence (including statement from a doctor, employer, counsellor or independent member of the community as appropriate) accompanying an application for extension and decide on the outcome. Length of extensions: Up to one week's extension (five working days) may be granted if a signed statement with supporting documentation is sent with the assignment, proving that an unforeseen and uncontrollable circumstance caused the delay, for example unusual and unpredictable work or family commitments. If the signed statement and supporting documentation does not show that unforeseen and uncontrollable circumstances were present for the days claimed, then the normal reduction in marks for a late assignment of 20% per working day will apply. Extensions beyond one week are not allowed unless express permission is obtained.
from the Examiner. Extensions beyond one week are only granted in extreme circumstance because model answers may be distributed after this time. If you are likely to require an extension for a longer period than one week, you must contact the Examiner for advice. In most cases, you will be required to complete an alternative make-up assignment. However, make-up assignments are only granted if you have passed all other pieces of assessment for the course. Medical extensions: In the case of an application for extension for medical reasons, the documentation should include a statement from a doctor stating: the date the medical condition began or changed; how the condition affected the student's ability to study; when it became apparent that the student could not submit the assignment. As a rule, you will be granted an extension for the number of working days covered on a medical certificate. In the case of a medical extension, you do not need to contact the Examiner unless you require an extension of longer than one week. Extensions for family/personal reasons: In the case of an application for extension for family/personal reasons, the documentation should include a statement from a doctor, counsellor or independent member of the community stating: the date the student's personal circumstances began or changed; how the circumstances affected the student's ability to complete the assignment; when it became apparent that the student could not complete the assignment. In the case of an extension for family/personal reasons you must contact the Examiner before the due date to discuss the reason for the extension and to negotiate the length of an extension if granted. Extensions for employment-related reasons: In the case of an application for extension for employment-related reasons, the documentation should include a statement from the student's employer stating: the date the student's employment began or the conditions of employment changed; how this prevents the student from completing the assignment. In the case of an extension for employment-related reasons you must contact the Examiner before the due date to discuss the reason for the extension and to negotiate the length of an extension if granted.  

Text Books: Please note that it is the responsibility of the student to acquire a copy of the textbook as soon as their enrolment in the course has been confirmed. Extensions will not be granted on the basis of the student not having a copy of the text, if the text is available from the USQ bookshop.
