Examiner: Jackie Doolan
Moderator: Jill Scanlan

REQUISITES
Pre-requisite: MID8001 and MID8002 and MID8070 and MID8073 and MID8074 and MID8075 and MID8076 and Students must be enrolled in one of the following Programs: GCNP, GDON, GDMH, MANP, MHEA, MMID, MMPO, MNUR, PCNP, PDON, PDMH, PDEV, SING, CRPG.

RATIONALE
This course is designed to focus the students' efforts upon the requirement to meet all the ACMI competencies before they can complete this course and register as midwives. A praxis research approach will be used to guide students to record and reflect upon their own practice before comparing their practice with the scholarly literature and making changes towards best, evidenced-based practice where appropriate.

SYNOPSIS
During this course students will complete their clinical experience and finalise their portfolio of evidence in relation to ACMI competencies. The student's portfolio will be a major piece of work which demonstrates both their skills as praxis researchers and their achievement of ACMI competencies. Computer mediated conferencing will continue throughout the semester as a way of maintaining contact and providing support to students but no new material is planned to be introduced.

OBJECTIVES
On successful completion of this course students will be able to:
1. use Praxis methodology as a research framework for critically evaluating and developing own practice as a midwife;
2. provide evidence of competency of practice in clinical skills by completing the appropriate clinical practice, reflection and assessments in Section 3 of their Clinical Skills Portfolio;
3. demonstrate through written and verified forms of evidence that clinical practice meets the ACMI competencies which includes all of the fourteen competencies and at least half of all the performance criteria associated with each competency;
4. demonstrate through written and verified forms of evidence that clinical practice meets the ACMI competencies which includes all of the fourteen competencies and at least half of all performance criteria associated with each competency.

TOPICS

TEXT and MATERIALS required to be PURCHASED or ACCESSED:
ALL textbooks and materials are available for purchase from USQ BOOKSHOP (unless otherwise stated). Orders may be placed via secure internet, free fax 1800642453, phone 07 46312742 (within Australia), or mail. Overseas students should fax +61 7 46311743, or phone +61 7 46312742. For costs, further details, and internet ordering, use the 'Textbook Search' facility at http://bookshop.usq.edu.au click 'Semester', then enter your 'Course Code' (no spaces).

REFERENCE MATERIALS:
Reference materials are materials that, if accessed by students, may improve their knowledge and understanding of the material in the course and enrich their learning experience.

IMPORTANT ASSESSMENT INFORMATION

1 Attendance requirements:
   Students must complete 134 hours of clinical experience to satisfy the clinical objectives of this course. The clinical requirement in this course contributes to the minimum requirement of the program of 800 hours clinical experience which must be carried out over three semesters. Clinical experience includes both paid clinical practice and a small degree of unpaid supernumerary clinical practice. During clinical placement students must follow hospital policy and procedure and maintain safe, professional practice as outlined by nursing and midwifery professional bodies practice guidelines.

2 Requirements for students to complete each assessment item satisfactorily:
   To complete each of the assessment items satisfactorily, students must obtain at least 50% of the marks available for each assessment item.

3 Penalties for late submission of required work:
   If students submit assignments after the due date without prior approval then a penalty of 5% of the total marks available for the assignment will apply for each working day late.

4 Requirements for student to be awarded a passing grade in the course:
To be assured of receiving a passing grade a student must submit all of the assessment items and achieve at least 50% of the available marks for those items. To be assured of a pass in the clinical component, students must provide verification that they have undertaken all the placements and key clinical skills and 'achieved competency', as measured by the ACMI Competency Based Assessment Tools, in all the designated areas of the 'Clinical Skills Portfolio'. The student will then be awarded 1 mark for this assessment item. Otherwise 0 marks will be awarded and the student will not pass the course. To pass the Portfolio, the student must demonstrate 'competency' of midwifery practice by providing an ACMI Competency Portfolio, consisting of clinical scenarios, validated by clients and endorsed midwives, and other relevant evidence to support the claim that their practice meets at least half the cues of each and every ACMI Competency. During clinical placement, students must follow hospital policy and procedure and maintain safe, professional practice as outlined by nursing and midwifery professional bodies practice guidelines. To be assured of a pass in the observational assessment, students must demonstrate competency. Competency is determined through the observational assessment of the student's midwifery practice by a trained competency assessor at the partner hospitals. The assessor verifies that a student's practice is competent by signing a statement that the student is able to demonstrate that he/she meets each and every ACMI competency as outlined on the ACMI Competency Evaluation Tool.

5 Method used to combine assessment results to attain final grade:
The final grades for students will be assigned on the basis of the weighted aggregate of the marks obtained for each of the summative assessment items in the course.

6 Examination information:
There is no examination in this course.

7 Examination period when Deferred/Supplementary examinations will be held:
There will be no Deferred or Supplementary examinations in this course.

8 University Regulations:
Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. These regulations can be found at the URL http://www.usq.edu.au/corporateservices/calendar/part5.htm or in the current USQ Handbook.

ASSESSMENT NOTES

9 The due date for an assignment is the date by which a student must despatch the assignment to the USQ. The onus is on the student to provide proof of the despatch date, if requested by the Examiner.

10 Students must retain a copy of each item submitted for assessment. If requested, students will be required to provide a copy of assignments submitted for assessment purposes. Such copies should be despatched to USQ within 24 hours of receipt of a request being made.

11 The examiner may grant an extension of the due date of an assignment in extenuating circumstances.
12 The Faculty will normally only accept assessments that have been written, typed or printed on paper-based media.

13 The Faculty will NOT accept submission of assignments by facsimile.

14 Students who do not have regular access to postal services or who are otherwise disadvantaged by these regulations may be given special consideration. They should contact the examiner of the course to negotiate such special arrangements.

15 In the event that a due date for an assignment falls on a local public holiday in their area, such as a Show holiday, the due date for the assignment will be the next day. Students are to note on the assignment cover the date of the public holiday for the Examiner's convenience.

16 Students who have undertaken all of the required assessments in this course but who have failed to meet some of the specified objectives of the course within the normally prescribed time may be awarded the temporary grade: IM (Incomplete - Make up). An IM grade will only be awarded when, in the opinion of the examiner, a student will be able to achieve the remaining objectives of the course after a period of non directed personal study.

17 Students will require access to e-mail and internet access to USQConnect for this course.
