REQUISITES
Pre-requisite: SEC2505

RATIONALE
With recent reform initiatives requiring teachers and schools to provide for changes to the traditional academic focus of senior schooling, pre-service teachers need to become competent in engaging with the diverse needs of these senior students. As well as understanding the curriculum and pedagogy of the traditional academic senior school, teachers must design and implement curricula for the multiple pathways required in the contemporary school sector. The provision of vocational and workplace educational experiences for students are current challenges for schools, and pre-service teachers should become familiar with these reform initiatives, understand the implications for their teaching, and be able to plan for sound learning outcomes and achievement of competencies both in school and in workplaces. The professional teacher for the 21st Century needs to be able to manage diverse clienteles and sectorial issues to deliver curricula appropriate to meeting the standards of the accrediting authorities, and encourage, through a sound knowledge of curriculum, opportunities for students to gain the attributes of lifelong learning.

SYNOPSIS
This course will explore a range of curriculum issues for pre-service teachers to gain competence to teach in the senior years of schooling. In particular, this course will focus on the curriculum requirements of senior subjects and vocational certificated courses. Pre-service teachers will discuss the mandated elements of curriculum for certification, practice designing units of work linked to specific criteria, and to pre-specified learning
outcomes in a competency-based framework. They will gain understanding and practice of curriculum design in their chosen disciplines for application to the diverse senior schooling cohort of students. This course aims to give secondary educators increased understanding and confidence to deal with issues for senior schooling, strategies for teaching in their chosen disciplines, and to be able to modify curriculum for explicit teaching in vocational sectors. Literacy, numeracy and ICT imperatives will be discussed and embedded in this approach to understanding curriculum. These emerging professionals will develop and design authentic curriculum units for students in the senior years and demonstrate beginning competence in designing work programs for senior subjects and for vocational competencies, to maximise engagement of students and facilitate certification purposes.

**OBJECTIVES**

On completion of this course students will be able to:

1. Continue to demonstrate an understanding of the importance of using a variety of student centred strategies when teaching in their subject areas.
2. Demonstrate further skill in planning lessons which incorporate a variety of student centred strategies. Critically examine available resources to enhance teaching and learning. Develop skills in devising and understanding use of various methods of assessment. Continue to develop a course of work in line with syllabus recommendations. Demonstrate an understanding of classroom management in the subject areas. Demonstrate inclusive practices in planning and assessment techniques.
3. Critically examine available resources to enhance teaching and learning. Develop skills in devising and understanding use of various methods of assessment. Continue to develop a course of work in line with syllabus recommendations. Demonstrate an understanding of classroom management in the subject areas. Demonstrate inclusive practices in planning and assessment techniques.
4. Develop skills in devising and understanding use of various methods of assessment.
5. Continue to develop a course of work in line with syllabus recommendations.
6. Demonstrate an understanding of classroom management in the subject areas.
7. Demonstrate inclusive practices in planning and assessment techniques.

TEXT and MATERIALS required to be PURCHASED or ACCESSED:

ALL textbooks and materials are available for purchase from USQ BOOKSHOP (unless otherwise stated). Orders may be placed via secure internet, free fax 1800642453, phone 07 46312742 (within Australia), or mail. Overseas students should fax +61 7 46311743, or phone +61 7 46312742. For costs, further details, and internet ordering, use the 'Textbook Search' facility at http://bookshop.usq.edu.au click 'Semester', then enter your 'Course Code' (no spaces).

The relevant Queensland Studies Authority's Syllabus documents for the subject area the student undertakes must be purchased:

REFERENCE MATERIALS:

Reference materials are materials that, if accessed by students, may improve their knowledge and understanding of the material in the course and enrich their learning experience.

MATHEMATICS: To be supplied

IMPORTANT ASSESSMENT INFORMATION

1 Attendance requirements:
   It is the students' responsibility to attend and participate appropriately in all activities (such as lectures, tutorials, laboratories and practical work) scheduled for them, and to study all material provided to them or required to be accessed by them to maximise their chance of meeting the objectives of the course and to be informed of course-related activities and administration.

2 Requirements for students to complete each assessment item satisfactorily:
   To complete each of the assessment items satisfactorily, students must obtain at least 50% of the marks available (or at least a grade of C-) for each assessment item.

3 Penalties for late submission of required work:
   If students submit assignments after the due date without prior approval then a penalty of 10% of the total marks gained by the student for the assignment will apply for each week late.

4 Requirements for student to be awarded a passing grade in the course:
   To be assured of a passing grade, students must demonstrate, via the summative assessment items, that they have achieved the required minimum standards in
relation to the objectives of the course by satisfactorily completing all summative assessment items (the examination and assignments).

5 Method used to combine assessment results to attain final grade:
The final grades for students will be assigned on the basis of the weighted aggregate of the marks (or grades) obtained for each of the summative assessment items in the course.

6 Examination information:
There is no examination in this course.

7 Examination period when Deferred/Supplementary examinations will be held:
There will be no Deferred or Supplementary examinations in this course.

8 University Regulations:
Students should read USQ Regulations 5.1 Definitions, 5.6. Assessment, and 5.10 Academic Misconduct for further information and to avoid actions which might contravene University Regulations. These regulations can be found at the URL http://www.usq.edu.au/corporateservices/calendar/part5.htm or in the current USQ Handbook.

ASSESSMENT NOTES

1 The due date for an assignment is the date by which a student must despatch the assignment to the USQ. The onus is on the student to provide proof of the despatch date, if requested by the Examiner.

2 Students must retain a copy of each item submitted for assessment. This must be produced within five days if required by the Examiner.

3 The examiner may grant an extension of the due date of an assignment in extenuating circumstances.

4 The Faculty will normally only accept assessments that have been written, typed or printed on paper-based media.

5 Students who have undertaken all of the required assessments in a course but who have failed to meet some of the specified objectives of a course within the normally prescribed time may be awarded the temporary grade: IM (Incomplete - Make up). An IM grade will only be awarded when, in the opinion of the examiner, a student will be able to achieve the remaining objectives of the course after a period of non directed personal study.

6 Students who, for medical, family/personal, or employment-related reasons, are unable to complete an assignment or to sit for an examination at the scheduled time may apply to defer an assessment in a course. Such a request must be accompanied by appropriate supporting documentation. One of the following temporary grades may be awarded IDS (Incomplete - Deferred Examination; IDM (Incomplete Deferred Make-up); IDB (Incomplete - Both Deferred Examination and Deferred Make-up).

7 When there is more than one marker for a single item of assessment, the distributed patterns and means for the different markers will be compared and marks adjusted if necessary.

8 Marking criteria are provided in course material as mark sheets/guides or as part of assignment specifications.
9 All assessment items must be attempted/submitted with a pass overall gained.
