RATIONALE
This practicum builds on the counselling and assessment skills and knowledge acquired in Counselling Placement A. These skills will be applied in a new setting.

SYNOPSIS
This practicum course provides students with a structured situation in which to develop counselling and assessment skills in a new setting. While the objectives are similar to those in Counselling Placement A, it is anticipated that the new setting will provide a different set of challenges such that the students will need to broaden and diversify their counselling and assessment skills. The emphasis is still on skill development and frequent supervision sessions are expected.

OBJECTIVES
At the end of the practicum, students will be able to:

1. demonstrate a broader range of counselling and assessment competencies than those developed in their first practicum.
